#### 2.4.5. Great Method #4

## 3. What's Next?

### 3.1. Multiplying Revenue from Channel Language Translation

### 3.2. How to Move On

## 1. What You'll Learn

In this book I'll show you how to make money by creating videos on YouTube without recording your face or voice. This is going to be a straight to the point training that shows you exactly what to do. It's going to have no fluff. It's not going to be like other trainings that just talk about theory. You're going to walk away from this book with actionable information that you can take action on right now. Specifically, I'll go over four different powerful secrets for doing this.

If you'd like to jump start and achieve great success with your YouTube channels, you can join our community with this link: <https://bit.ly/3UFapCq>.

But first, why should you do YouTube as opposed to all of the other business models that are out there? Well, running YouTube channels where you don't even have to show your face has been proven to be the best business model out there.

First of all, you can run your YouTube channels from anywhere your location doesn't matter. I started my YouTube journey when I was just 14 years old and I was making \$3,000 a month by the time I was 15, and over \$30,000 a month by the time I graduated high school. Now, if you implement the secrets, I can't guarantee you'll automatically make \$30,000 a month the first month, but I am going to show you exactly what I did step by step.

Now, the biggest reason that YouTube is the best business model out there is that you do the work once and it can continue to pay you for years into the future. You can't necessarily say the same about other businesses for many times. You have to constantly be doing new things within the business every single month to continue making money.

Whereas with YouTube, you set up the systems and processes once. Think of every video that you upload as a piece of digital real estate that lives forever on the internet that can then pay you money every single month. I still make money every single month from videos that I uploaded when I was just 14 years old.

So, I'm going to show you exactly how you can start planting these seeds for yourself with the four secrets that I mentioned.

## 2. The 4 Powerful Secrets

#1. Secret number 1 is the best niches to go for.

#2. Secret number 2 is how to actually generate that content without showing your face and without recording any videos whatsoever.

#3. Secret number 3 is the true secret for going viral on YouTube fast. I barely even talked about this online. So, you're going to get a lot of value from that.

**#4.** And then, secret number 4 is how to monetize your channel and make the most amount of money possible.

Now, I'm not going to bore you with my story, but I'm just going to recap it very quickly. I started YouTube when I was 14 years old, and by the time I was 16 years old, I was making more money than both of my parents combined.

Before I was 20, I was a millionaire from YouTube. Today I run over a dozen different channels and I make millions of dollars per year from YouTube. I got a gold play button from YouTube for one of my channels hitting over a million subscribers, and I've gotten multiple silver play buttons for my channels hitting over a hundred thousand subscribers.

Now, I have a video on my personal YouTube channel which goes over my full story but basically to summarize it for you, I absolutely hated school. I was dreading having to then go to college for multiple years as well, go deep into debt for that, work for years to pay that off, buy a house with a mortgage going to a job that I hate, work almost my whole life to pay off that mortgage, and then towards the end of my life, potentially have just a couple years to enjoy a decent retirement. Who knows if that would even happen!

It seemed like my life was scripted out for me. In all honesty, I didn't want any part of it. You might have felt like that in the past as well. I was so incredibly depressed that a lot of times I had a lot of conflict between my parents and me. Things are better now, thankfully. But at the time, I was searching for a better way and I came across this YouTube channel that was called Top Fives, which uploaded videos without ever even showing their face or anything.

I thought to myself, you know what? I could make videos like this. At the time, I didn't even know how they were making money or what they were doing, but I took this crappy iPod Touch that I had at the time with a cracked screen, and I started writing scripts, recording voiceovers, and editing the videos together with my laptop, which could barely even edit at the time, and uploading those videos onto YouTube.
