

## sustainability

# 2018 state of sustainability in the events industry survey

In January, 2018 the Events Industry Council, in collaboration with Sustainable Brands and Radisson Hotels Group, conducted a survey of 357 events professionals on the state of sustainability in the events industry.

## major findings

Does your organisation use your live events to reinforce your commitment to sustainability?

**258 Respondents** 

**Brand and Events: 36%** 

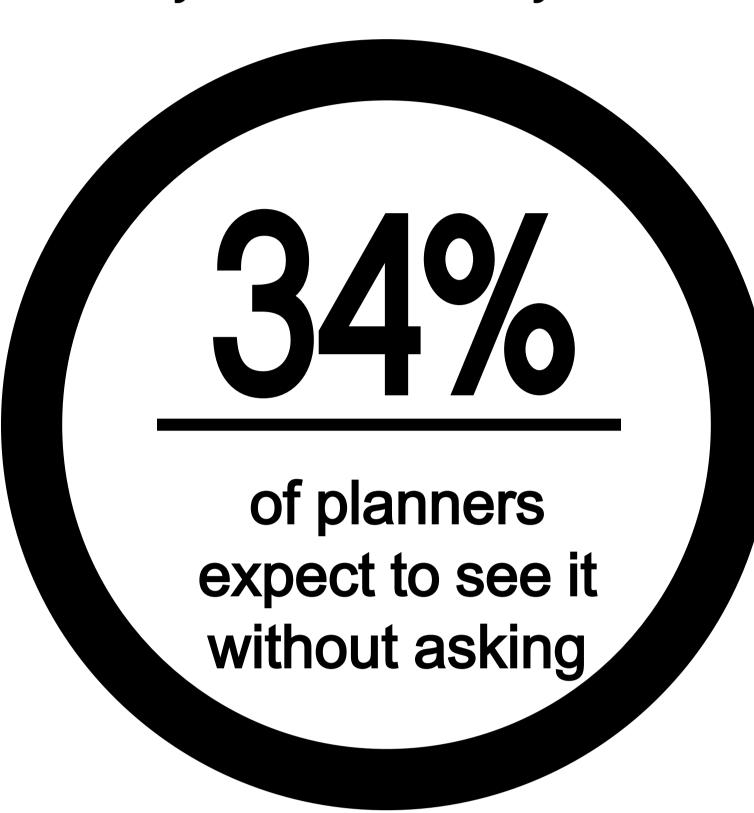

**Brand, not Events: 11%** 

No sustainability mandate: 53%

of organisations with sustainability mandates

do not implement sustainable practices for their events.

Is sustainability included in your RFPs/Proposals? Planner vs Supplier Perspectives

29.4% ask about sustainability
37.1% don't ask, & don't expect it to be included
(based on 170 planners)

49%
of suppliers provide it on request

25.4% include sustainability information
25.4% don't include it

(based on 59 suppliers)

(based on 59 suppliers)

Suppliers: Remember to include sustainability features in your proposals. Why? Roughly one third of planners are expecting to see sustainability included in proposals without asking for it,

75% of the time, it won't be included.

75% of budgets

need sustainability to be cost saving or cost neutral What types of sustainability initiatives does your organisation support?

247 Respondents

Cost Saving 46%

Cost Neutral 29%

Increased Cost 13%

Other 12%

## what are we doing?

### High Application

- 86% offer vegetarian menus80% offer allergy-responsible menus
- stations

76% replace bottled water with water

These are on the rise! In our 2016

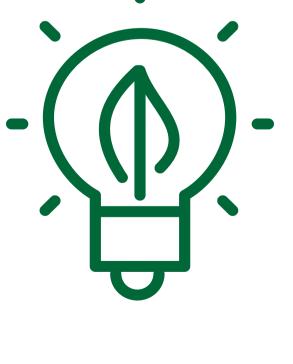

survey, vegetarian menus were requested by 65% of planners, allergy-responsible by 59% and water stations by 56%.

Mid Application

- 58% donate event materials57% source local food
- 49% sort recyclables47% host paperless n
- 47% host paperless meetings
  43% have health and wellness
- 43% have health and wellness programmes
  42% have a diversity & inclusion programme
- 40% have a food rescue programme
- 36% use sustainable décor
- 35% have a CSR/community service programme

Low Application

- 17% do a post event sustainability report11% offer zero-waste meetings
- 10% offer carbon neutral meetings
- 4% have other sustainability programmes

What does this mean? High application options have become accepted practice. Mid application options offer opportunities for differentiation. Select those that best align with your organisation's purpose and objectives. Low application options are more advanced, and typically will involve additional costs.
