

SCCCS Summer Camp New Driving Direction
(New Driving Direction due to Hwy 330 Closure Between Aug 7, 2006 thru Oct 2006)

Exit Hwy 10 at University St. in Redlands. Turn north (left) at the stop sign. You will travel through the University of Redlands campus itself, and after a few blocks you will reach Lugonia/Hwy 38. Turn right onto Lugonia/Hwy 38. This road will take you all the way to Big Bear.

Once on Hwy 38 you will travel through Mentone, Angelus Oaks, past Barton Flats and Heart Bar National Forest Campgrounds, Onyx Summit, Lake Williams and finally into Big Bear Valley. Hwy 38 then makes a sharp turn to the left. Turn Left, staying on Hwy 38 which has now become Big Bear Blvd., the main drag of Big Bear.

Continue on Big Bear Blvd. You will pass through Big Bear City and into Big Bear Lake. It will turn to four lanes as you reach lake itself. After passing through Big Bear Lake you will reach a three way stop. You will be facing a Texaco Gas Station. Turn right.

Follow the road around the curve and up the hill (here you'll pass Magic Mountain/Alpine Slide on the left). At the top of the hill, Mill Creek road branches off to the left. Take Mill Creek road through the residential area.

You'll immediately pass the Aspen Glen National Forest Picnic area on the left, opposite of Oak Knoll Lodge. At the top of the small hill, Mill Creek branches to the left, turn left. Follow Mill Creek until the pavement ends. You'll see a gravel (or snow, depending) road directly in front of you, along with a sign marked "Cedar Lake Camp". Follow this road into camp.
