The maximum uncertainty for this survey is 0.46 feet.

(B) Occupation or possession lines:

No uncertainty was created by visible occupation or possession lines.

(C) Clarity or ambiguity of the record description and or adjoiner's descriptions:

No uncertainty was created by the above mentioned documents.

(D) This survey falls under the classification of a "Suburban" survey. The acceptable relative positional precision (random errors in measurements) = 0.13 feet (40 millimeters) plus 100 parts per million as specified in Section 7 of said Rule 12.
