Features

Thermometer & Level Gauge

Easy to read and easily accessible, this displays both the temperature of the unit as well as the current level of hydraulic oil.

Breather & Filler Cap

Allowing the Power Pack to breath, it also allows you to top off the hydraulic oil whenever it runs low.

Oil Filter

The oil filter removes contaminants form the hydraulic oil.

Jack Stand

The standard jack stand keeps the Power Pack standing when not in use.

Cooling Fan (Optional)

The cooling fan increases the maximum operating temperature, allowing you to work longer in higher temperature environments.
