New Player One

1. Either Select your player found in the search
OR
2. Type in the new player you want to add to your roster. Only do this if you are 100% certain the player is not in ScoreMonster already otherwise you will have duplicate players on your roster.

If your player is not currently in ScoreMonster (on a roster) they will not appear when you search for them.

Oh Snap! (validation message on top of Add Players)

If you receive the “Oh Snap!” message when trying to submit your players/roster, this means one of the players is missing a required field. Expand each player to find the required field. We recognize this is a usability issue and will hotfix to automatically expand the players with validation errors.

Completing the registration

Once the coach completes the registration, they will see a confirmation screen and receive an email that their team has been registered. The League’s Secretary/Admin will review the team criteria and roster information and Approve/Decline the team. If the team is approved the coach is done! If the team is declined see step 3 below.

3. If the team is declined, the coach will receive an email notification from the League Secretary that includes a note on what information needs to be correct. After reviewing the corrections, coaches

may want to contact their League Secretary to clarify any questions then go back to the MNbaseball.org home page and re-submit their team roster (see step #2).

Process for Adding additional Players After Team Is Approved (after June 30th)

After a team is been approved the coach the system will allow coaches to add additional players. This is done through the ScoreMonster.com control panel (see step #1). If a new player is added they may not be approved for your playoff roster since it's after the June 30th date. Advise with your League Officials.

When a new player is added to the roster, they will need to be approve/declined by the League Secretary (each player is approved/declined individually after the team is approved).

IMPORTANT NOTES

1. Important: Coaches have ONLY one opportunity (each year) while completing the MBA Team Registration to complete the “Additional Information” fields for their team and players. Coaches can “view-only” these fields before completing the registration by navigating to:
 - **MBA Team** Additional Info = Teams → Manager → Edit (see bottom of page)
 - **MBA Player** Additional Info = Teams → Manager → Roster → Select a Player (see bottom of page)

Any edits to “Additional Information” after the Team Registration is complete need to be completed by the League Secretary. The League Secretary will have permissions in ScoreMonster to make edits to Additional Information fields.
