Earlier last week, [Scratch DJ Academy](#), the world's first and leading DJ and music production school, hosted an intimate event for members of the media at its NoHo location. Scratch DJ Academy was founded by the late Jam Master Jay of [Run DMC](#) and Rob Principe, and it features over 10 course offerings, private lessons, and special workshops to help students become DJs or producers. Guests enjoyed a cocktail reception at the event and were given one-on-one workshops on scratching, mixing, and other cool DJ techniques.

The DJ instructors, which include TJ Mizell, son of Scratch DJ Academy co-founder Jam Master Jay, have incredible talents and are experts in teaching the art of DJing. Each one of them provided a brief introduction and demonstration on DJ techniques and then let guests try out the turntables for themselves. It was a memorable, interactive experience that gave guests a small taste of the magic involved in DJing. Be sure to check Scratch DJ Academy out!
