dsco

SUPPLIER ONBOARDING WITH DSCO

Dsco is a fast growing B2B data exchange solution that is "unchaining" the supply chain through powerful data and analytics. We've streamlined the exchange of inventory, orders, shipment, and invoice data, while building analytics and management tools to help both retailers and suppliers succeed in their trading partnerships.

WHY YOU'LL LOVE DSCO

No Costs or Fees For Your First Connection
Automated Onboarding and Testing
Easy to Use Portal

Connect Using Your Preferred Method
World Class Technical Support

WHAT'S NEXT?

Retail Partner Sends Invitation
Your retailer will send you an email invitation inviting you to connect to Dsco.

Create Profile
After you click the "Accept Invitation" link, you'll be asked to complete your Dsco profile. Over time, you'll have the opportunity to connect to multiple retail partners through Dsco if you so desire.

Meet Gandalf
Once you've completed your profile, you'll work with Gandalf, to choose your connection method and integrate with Dsco. You'll actually be connecting to a test retailer account called Gandalf's Retail Emporium.

Test Your Data & Connection
As you continue through Gandalf, you'll be invited to create and run tests against your inventory, order, shipment, and invoice data. By the time your Gandalf testing is complete, your Dsco account is ready to go live.

Go Live
Your retail partner will get a notification once you have completed Gandalf, so that they can begin receiving your inventory data, and passing you orders. Because Dsco is a standardized SaaS platform, you may even have finished your integration to Dsco before your retail partner does.

This whole process may seem daunting, but we see some suppliers complete the integration process in less than 24 hours. Take as long as you need, and if Gandalf gets tongue-tied, our technical support team is always ready to answer your questions.

If you have any questions, just email support@dsco.io for the fastest response. Our team is here to help make sharing retail data simple and easy.

WELCOME TO DSCO!
