If prompted to do so, enter your BYU-Idaho login credentials.

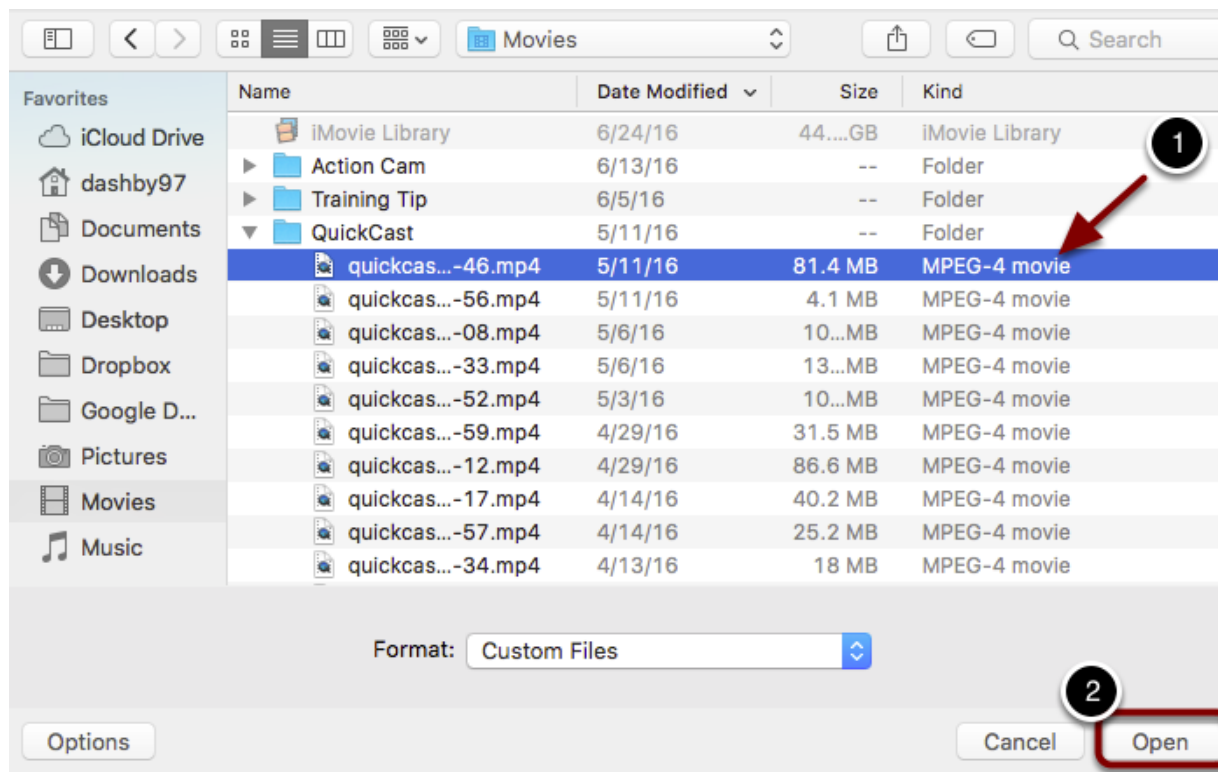

Upload Media

Upload Media

Click the button labeled "Choose a file to upload."

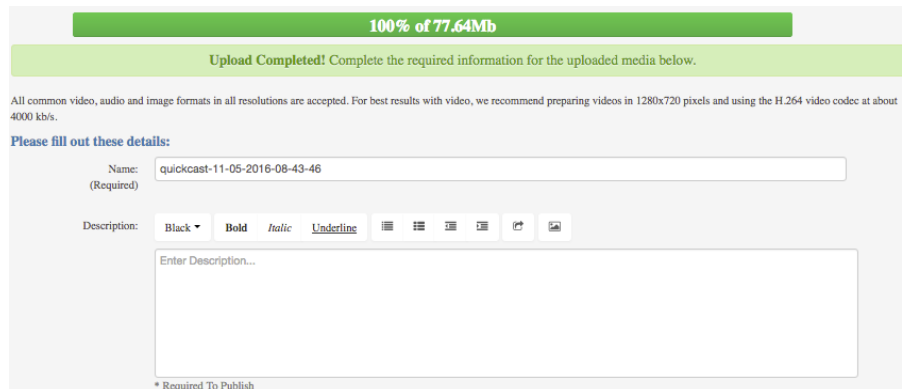

Find the Video

BYU-Idaho Online Knowledgebase

1. Browse your computer until you find the video file you'd like to upload.
2. Click **Open**.

Enter Title & Description

100% of 77.64Mb

Upload Completed! Complete the required information for the uploaded media below.

All common video, audio and image formats in all resolutions are accepted. For best results with video, we recommend preparing videos in 1280x720 pixels and using the H.264 video codec at about 4000 kb/s.

Please fill out these details:

Name: quickcast-11-05-2016-08-43-46
(Required)

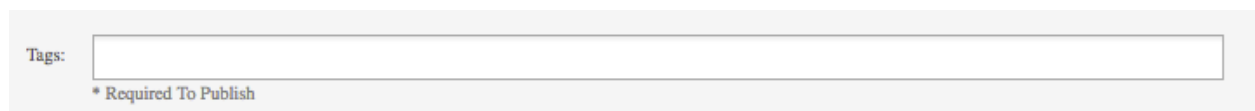

Description: **Black** **Bold** *Italic* Underline [List Bulleted] [List Numbered] [List Check] [Link] [Image]

Enter Description...

* Required To Publish

Give your video a title and description.

Enter Tags

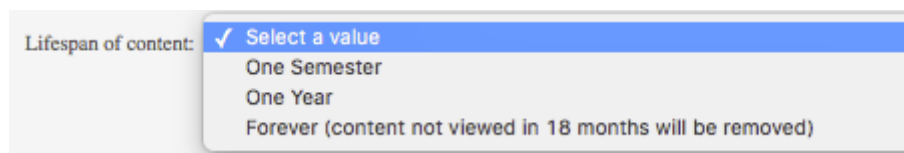

Tags: [Text Input Field]

* Required To Publish

Enter keyword tags that may help you or your students find this video using a search engine.

Choose Lifespan of Video

Lifespan of content:

- ✓ Select a value
- One Semester
- One Year
- Forever (content not viewed in 18 months will be removed)

Choose the duration of time you'd like this video to be available to you and your students.

Privacy Settings

- ☒ **Private** - Media page will be visible to the content owner only.
- ☐ **Unlisted** - Media page will be visible to anyone with a link to the page.
- ☐ **Published** - Media page will be visible to individuals according to entitlements on published destinations

Choose the privacy level you'd like for this video.

Note for online instructors: The "Unlisted" setting is sufficient for most of your needs. Using links and embed codes all students will have access to this video.

Save & Go To Media

1. Click **Save** to save the settings and information you've entered.
2. Click **Go To Media** to visit the video page. There you can find all the sharing options to share your video with your students.

How Do I Change the Privacy Settings on a Video That was Published Previously?

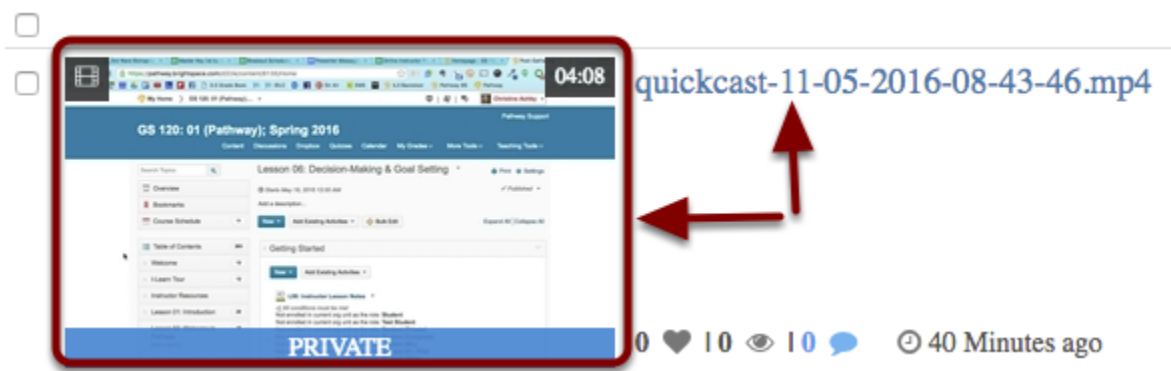

Privacy settings can be changed anytime during the lifespan of a video.

My Media

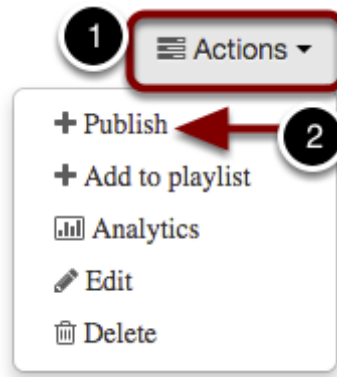

1. Click on your username in the upper right hand corner.
2. Select **My Media** from the drop down.

Select the Video

Click on the video thumbnail or the video title.

Publish

1. Below the video player click **Actions**.
2. Select **Publish** from the drop down menu.

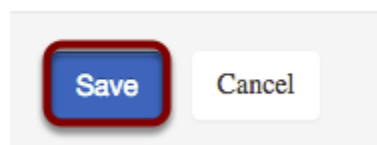

Privacy Settings

Complete all the required fields and save the entry before you can select to publish it to categories or channels.

- ☒ **Private** - Media page will be visible to the content owner only.
- ☐ **Unlisted** - Media page will be visible to anyone with a link to the page.
- ☐ **Published** - Media page will be visible to individuals according to entitlements on published destinations

Choose the level of privacy you'd like for this video.

Save

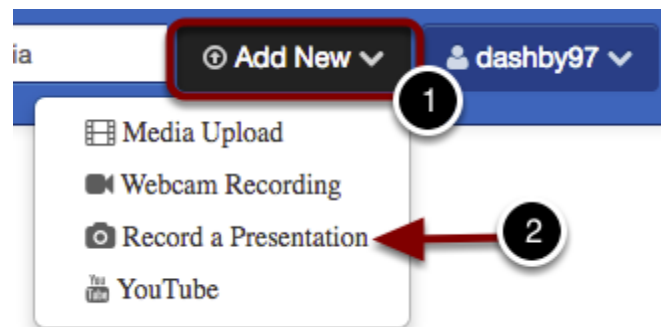

Click **Save** to keep your changes.

How do I Install the Kaltura CaptureSpace Desktop Recorder?

The Kaltura CaptureSpace Desktop Recorder is a desktop application that will allow you to record presentations, lectures, screencasts, and more. Once you have recorded your media, CaptureSpace will allow you to trim and upload your media directly to Kaltura (video.byui.edu).

Navigate to Install Page

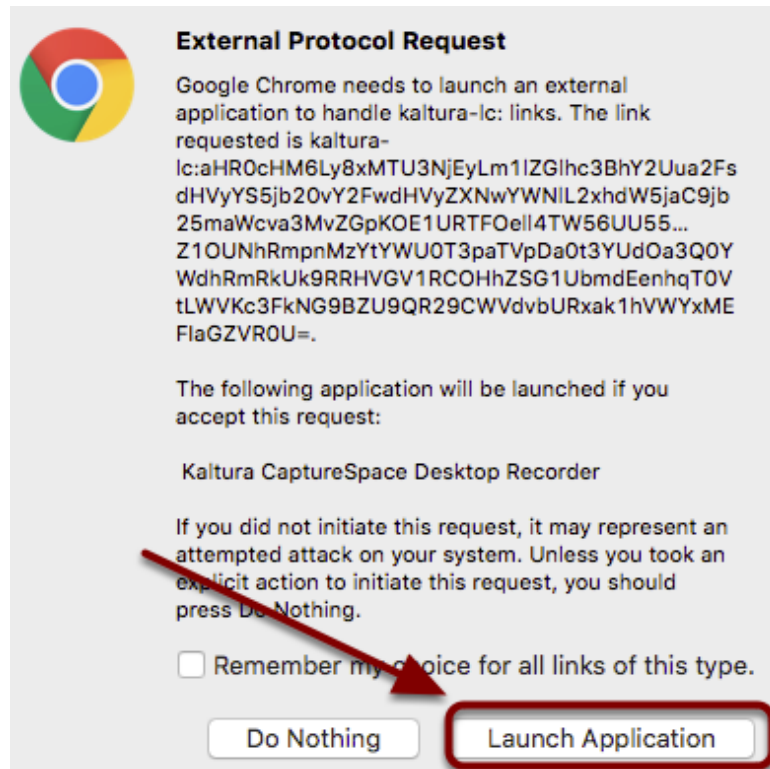

1. Click Add New
2. Select Record a Presentation from the drop-down menu.

Windows or Mac?

Download for Windows	Download for Mac
Windows System Requirements <ul style="list-style-type: none">• Windows 7,8,8.1 or 10 32/64 bit• .NET Framework 4.0+• Visual Studio runtime tools Supported Microsoft PowerPoint Versions <ul style="list-style-type: none">• Microsoft PowerPoint 2007 32 bit• Microsoft PowerPoint 2010 32/64 bit• Microsoft PowerPoint 2013 32/64 bit Download for Windows	OS X System Requirements <ul style="list-style-type: none">• OS X 10.8 and up Supported Microsoft PowerPoint Versions <ul style="list-style-type: none">• Microsoft PowerPoint 2011• Microsoft PowerPoint 2016 Download for Mac

Choose the software download that is compatible with your computer's operating system.

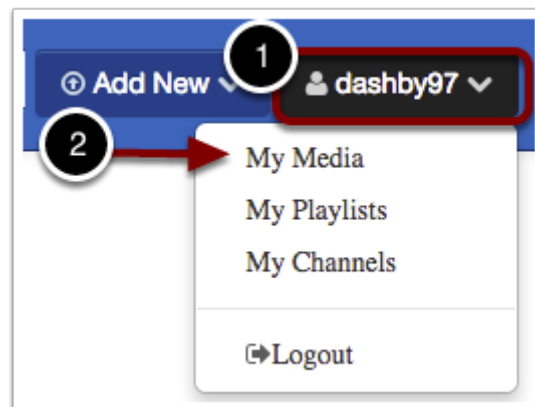

Running CaptureSpace

Once the software is installed, repeating steps 1 & 2 will automatically open the CaptureSpace software. You may need to grant permission to allow the browser to launch the application.

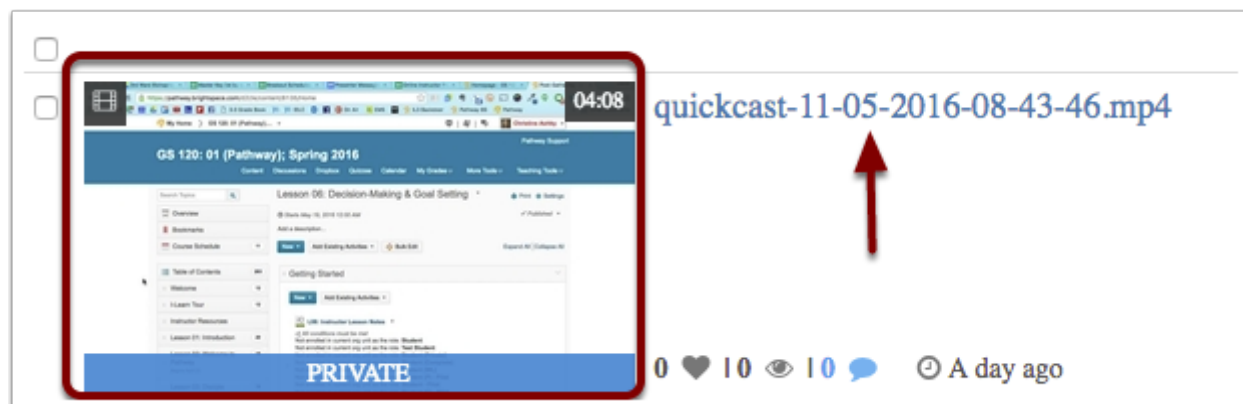

How Do I Embed a Video from Kaltura into I-Learn?

Navigate to My Media

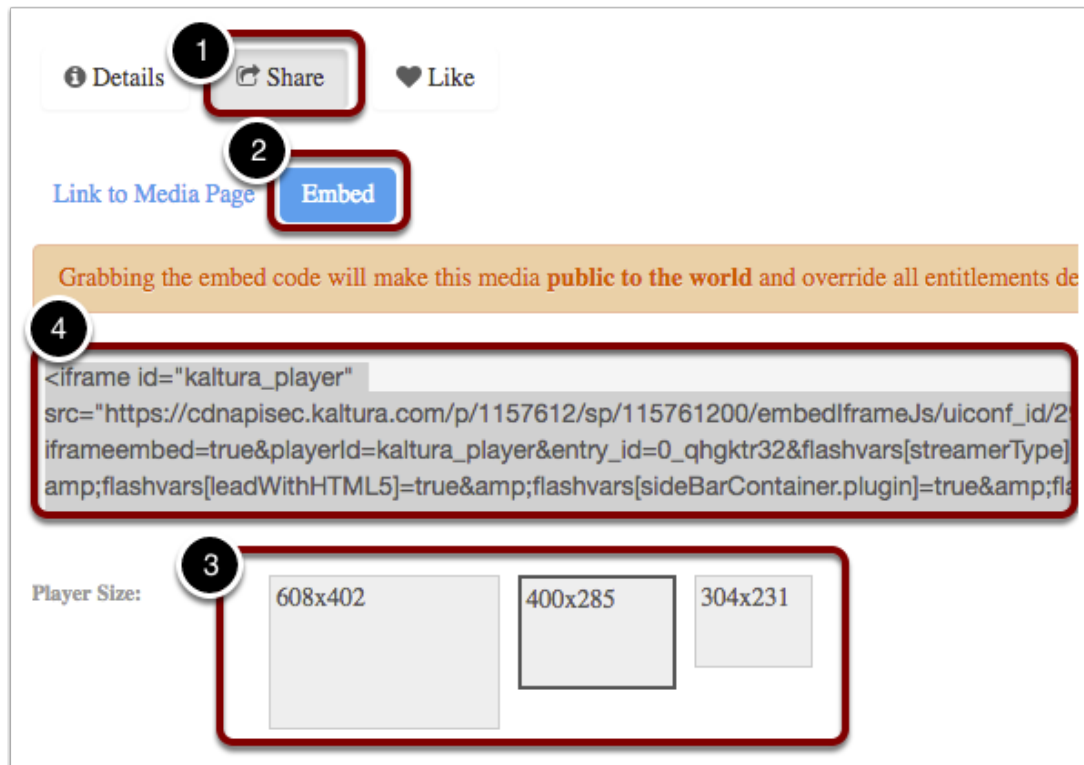

1. Click on your username (or button marked Guest if you're not logged in).
2. Click on **My Media**.

Select Video

Click on the video thumbnail image or the title of the video.

Choose Embed Settings

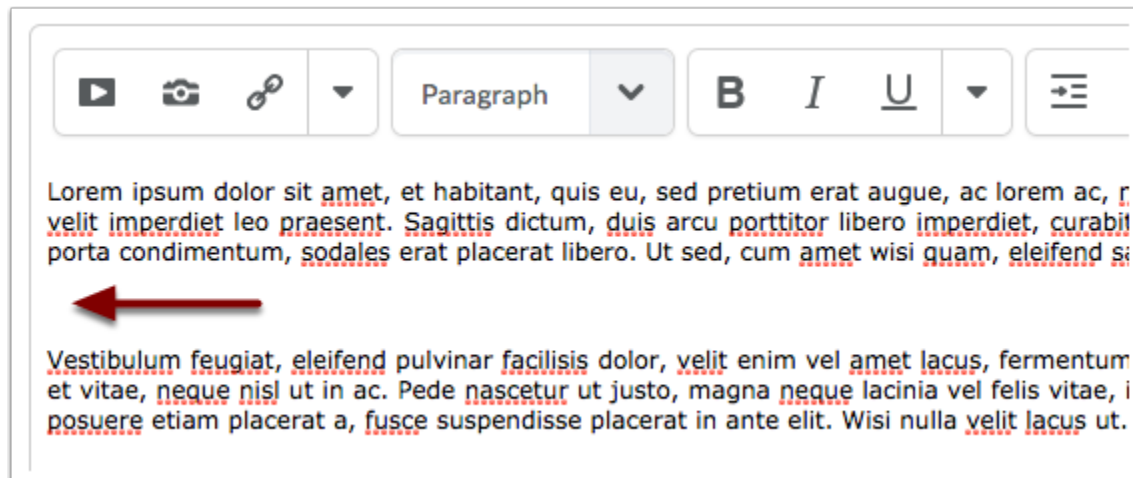

1. Click Share.
2. Click Embed.
3. Choose the player size. (*Note: 608x402 is wider than the Announcements widget on the course homepage, but does work.)
4. Copy the html embed code from the box.

Navigate to I-Learn Page

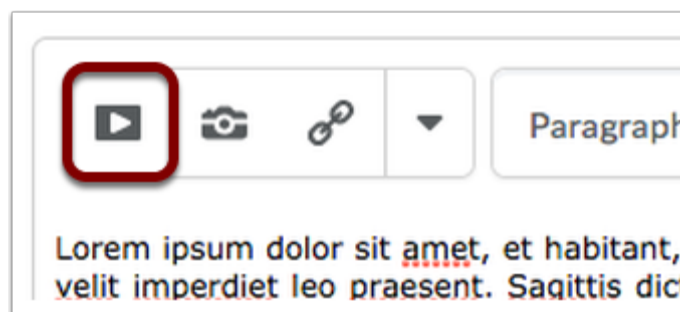

Select the announcement, discussion board, or content page in which you will embed the video.

Select Embed Location

Click that location to place your cursor at the point where you would like your video to appear.

Insert Stuff

With the content editor open, select the Insert Stuff button.

Paste Embed Code

```

Next

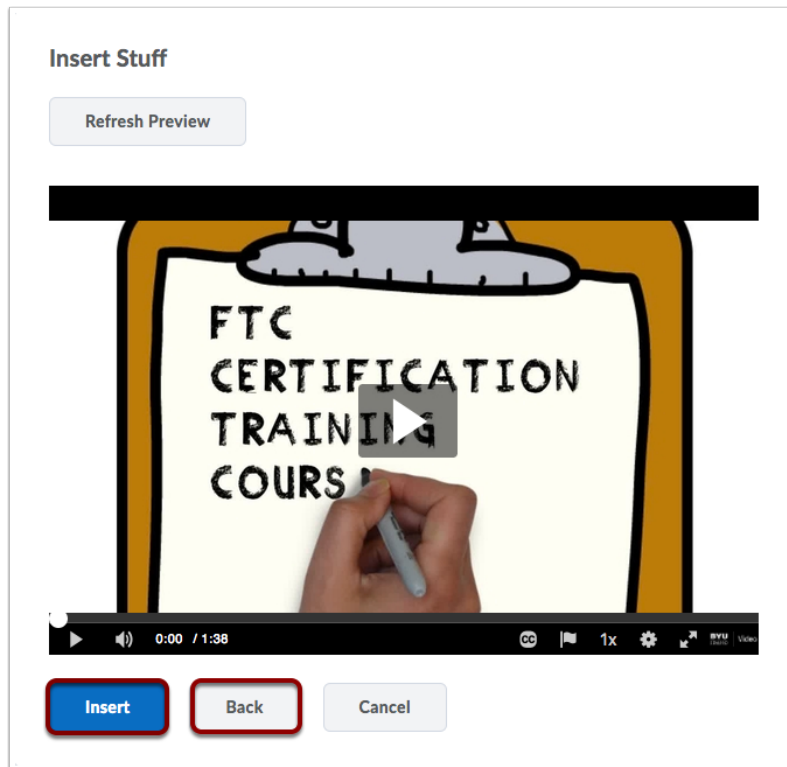

Back

Cancel

⌵

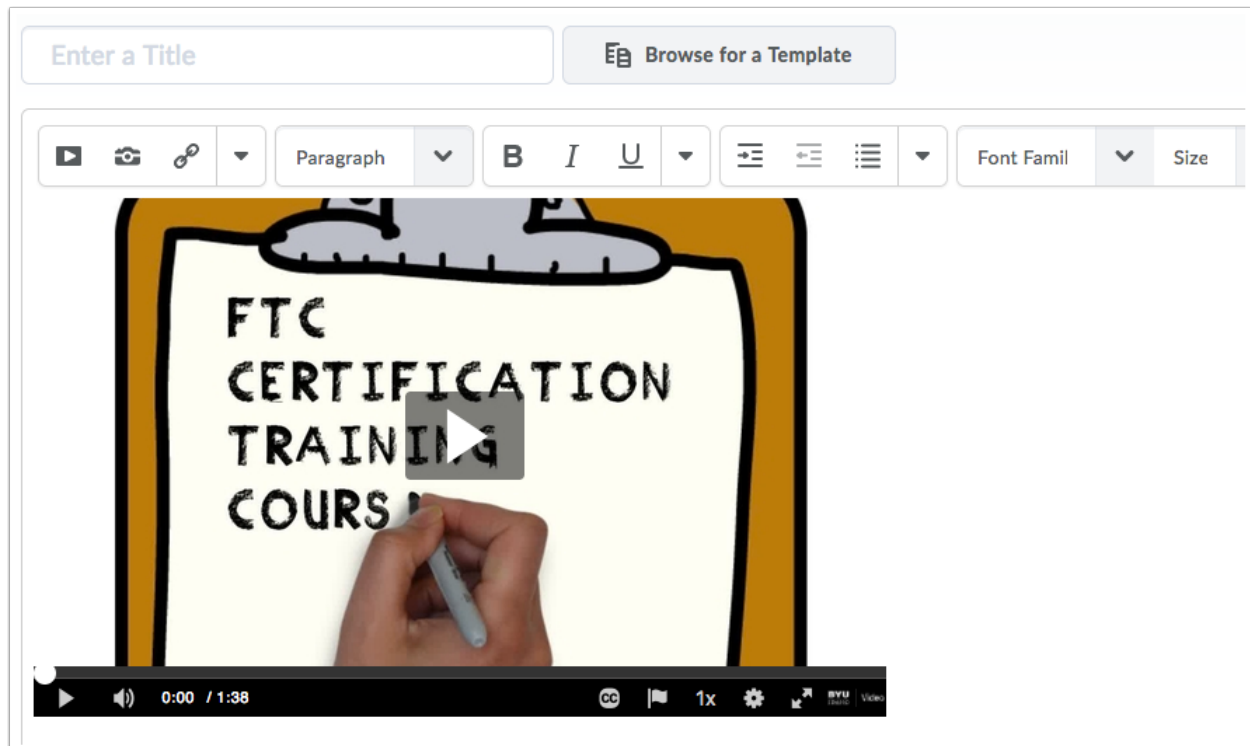

1. Paste the **embed code** that you copied from Kaltura.
2. Click **Next**.

Preview & Insert

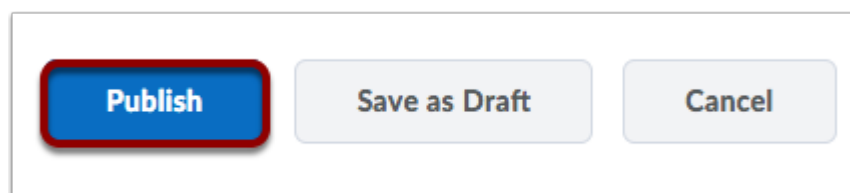

On this screen you can preview the size of your player and preview the video's contents. If you are ready to proceed you can click **Insert**. If you need to make any corrections to your embed code, you can click **Back**.

Finish Composing

Finish composing your item by adding any other text, images, etc.

Post / Publish

When you are ready, you can Publish your item.

*Note: HTML Source Editor

If you are more comfortable with editing HTML code directly, rather than using the WYSIWYG editor, you can do so by using the **HTML Source Editor** found in the bottom right hand corner of the content editor.
