For more information on creating new assessments, see How do I create an assessment?
Or edit an existing assessment.

In Tests & Quizzes, open the assessment and find the part. To edit the name and any of the information and settings associated with a part, next to that part's name, click Edit.

You cannot add a random question set to parts that already have questions.

For the Type, choose Random draw from question pool.
Set the options for the random set.

Options

Randomization

1. Enter the number of questions to draw from the selected question pool.
2. Select the question pool from the drop-down menu.
3. Choose to either randomize student questions each time an assessment is submitted or randomize student questions once for all submissions.
4. Enter the point value for correct answers on each question. Note that all questions in this random draw must be worth the same amount of points.
5. (Optional) For True/False and Multiple Choice, Single Correct questions, you may also enter a negative point value if a question is answered incorrectly.

Scoring

- Correct answers are worth 1.0 point(s).
- For 'True False' or 'Multiple Choice, Single Correct' questions, deduct 0.0 point(s) for incorrect answers. This overrides the original pool setting.

Note: Point values entered here override any value that was specified for individual questions in the corresponding Question Pool.
