1.1 Version 1

Revision History

Version 1

2.0

- Added - Adensity slider has been added. Allowing for adjustment to density for most brush types.
- Added - New Brush Load icon added.
- Added - 5 selectable palette hue ranges.
- Improved - Number of undo steps increased to 20.
- Changed - Brush loading now occurs explicitly rather than implicitly. Accomplished with new load brush icon.
- Changed - Color selection has been significantly expanded to include full hue range.
- Fixed - In some cases when starting a new stroke the previous stroke would draw one more dab.
- Fixed - A single tap would not always draw a dab.

1.8

- Improved - The small line brush type has been improved.

1.7

- Added - Brush Preview.
- Improved - Saved brushes now also save the saturation, luminance, opacity and size of the brush.
- Improved - Download size further reduced.

1.6

- Added - Two new brush types added.
- Improved - Two of the brush types had the jitter reduced to keep the dab size normalized to allow better combinations.
- Changed - Swapped position of color dabs and brush type dabs.
- Fixed - It was possible to select many of the icons when it was not intended by ending a paint stroke over an icon.
- Fixed - The bottom row of the Brush Save slots were conflicting with the row above it.

1.5

- Added - Luminance control for all colors of the currently loaded brush.
- Added - Saturation control for all colors of the currently loaded brush.
- Added - 2 additional core brush types added.
- Improved - Compatibility with Internet Explorer had been improved.
- Improved - The page related icons have been moved to the left hand side of the workspace, giving larger target areas to tapping and allowing for logical grouping.
- Improved - The control icon look was updated for the size and opacity sliders.
- Improved - Internal update to allow for brush types to have a dab step value.
- Improved - Internally opacity is now tied to the brush type so that when combining brushes the opacity is normalized between the brush types.
- Fixed - Tapping on the canvas without a brush / color selected would save an undo for that when it should not.
- Fixed - On some Android devices in some cases a touch of the icons was being triggered twice.

1.4

- Added - Seven new brush types added greatly increasing the variety of strokes possible.
- Improved - Directional brushes are cleaner at the start of the stroke.
- Improved - Separation of colors from brush types to allow for more brush types.
- Improved - Indicator shown for the currently selected brush type and colors.
- Improved - Further improvements to performance.
- Improved - Download size is smaller resulting in faster initial start times.
- Improved - The saved brushes now show actual strokes.
- Improved - Increased the range of opacity for strokes.
- Changed - Removed the special Dab Mode icon. Not longer needed.
- Fixed - Selecting the smallest brush size would not drawing anything.
- Fixed - Selecting the lowest opacity resulted in nothing being visible.

1.3

- Added - Mirrored drawing. Horizontal, Vertical or Horizontal/Vertical
- Improved - Significant performance improvements resulting in smoother strokes
- Improved - Don't reshuffle the Splash screen during the browser session when reloading the page.
- Improved - Right justify the dynamic scrolling help text.
- Changed - In the Ad based version make use of the browser page Reload (refresh) to clear the canvas.

1.2

- Added - Saving and Loading restore point.
- Added - Floating canvas
- Added - Canvas Rotation feature
- Added - Canvas Pan feature
- Added - Canvas Center feature
- Added - Outline style brushes added
- Added - Ability to override the default dab mode style.
- Floating notification text for some actions.
- Improved - Timestamp the file name.
- Improved - Some visual improvement such as fading some elements that are being removed.
- Arranged right side panel to make room for more control icons.
- Changed - Combined the Help and Web icons into one function. Help will now load the Alla Prima Paint web page where the forum and help links can be found.
- Fixed - When clearing the page the undo state was not properly saved.

1.1

- Added - New pastel style brushes.

1.0

- First Version
