

Family and Community Engagement Plan (FACE)

When schools, families and community work together to support learning, children tend to do better in school, stay in school longer, and like school more. In working to strengthen student academic success, Fouke High School has created a plan to develop an effective partnership with families and the community to support students and school improvement.

In summary of the FACE Plan, Fouke High School will:

- Invite families and the community to work collaboratively with the school in planning and developing of the FACE plan and on the school improvement plan.
- Provide regular communication of activities and academic success through a variety of ways, such as the school website, district sign, email and other media outlets.
- Provide opportunities and training for parents and the community to volunteer their time and resources to improve students' academic success.
- Partner with and provide support for families with resources necessary in helping their students' academic success.

A complete copy of the FACE Plan can be accessed through link to district website or a copy may also be obtained in the high school office and the parent resource center located in the library.
