PURCHASES AND PROCUREMENT

Purchases shall be made in accordance with State laws and procurement procedures governing school purchases that are deemed to be in the best interest of the District and are the result of fair and open competition between qualified bidders and suppliers.

DEFINITIONS

“Commodities” are all supplies, goods, material, equipment, computers, software, machinery, facilities, personal property, and services, other than personal and professional services, purchased on behalf of the District.

“micro-purchases” are purchases with a value of less than three thousand five hundred dollars (\$3,500) when purchased with Federal funds.

“Professional services” are legal, financial advisory, architectural, engineering, construction management, and land surveying professional consultant services.

“Specifications” means a technical description or other description of the physical and/or functional characteristics of a commodity.

Commodities

The superintendent shall develop procedures for the procurement of micro-purchases that provide for the distribution of purchases between eligible vendors to the extent possible.

Purchases of commodities with a purchase price of more than \$10,000 require prior Board approval; however, if an emergency exists, the Superintendent may waive this requirement.

The district shall notify in writing all actual or prospective bidders, offerors, or contractors who make a written request to the district for notification of opportunities to bid. The notification shall be made in sufficient time to allow actual or prospective bidders, offerors, or contractors to submit a bid or other appropriate response. The board shall accept bids submitted electronically by email or fax for any and all district purchases, unless specified to be submitted by other means or methods, and except those bids which have been specified to have a designated date upon which the bids shall be opened. The superintendent shall be responsible for ensuring submitted bids, whether written, faxed, or emailed, are retained in accordance with policy 7.15—RECORD RETENTION AND DESTRUCTION.

The district will not solicit bids or otherwise contract for a sum greater than \$25,000 with vendors that are on the “excluded parties list” if the contract is to be paid from federal grant funds.

All purchases for a Federal program with an estimated purchase price between three thousand five hundred dollars (\$3,500) and twenty thousand dollars (\$20,000) and all purchases of commodities with an estimated price that equals or exceeds twenty thousand dollars (\$20,000) shall be procured by soliciting bids. Specifications shall be devised for all commodities to be bid that are specific enough to ensure uniformity of the bid and yet not so restrictive that it would prevent competitive bidding. The bid specifications shall not include the name or identity of any specific vendor. The Board reserves the right to reject all bids and to purchase the commodity by negotiating a contract. In such an instance, each responsible bidder who submitted a bid shall be notified and given a reasonable opportunity to negotiate.

Bids shall be awarded after careful examination of the details of the bid to determine the best overall value to the District. In instances where the low bid was not accepted a statement of the reasons the low

bid was not accepted shall be attached to the bid. Bidders submitting written bids shall be notified in writing of the bid award.

The following commodities may be purchased without soliciting bids provided that the purchasing official determines in writing that it is not practicable to use other than the required or designated commodity or service, and a copy of the written determination is attached to the purchase order:

1. Commodities in instances of an unforeseen and unavoidable emergency;
2. Commodities available only from the federal government;
3. Utility services;
4. Used equipment and machinery and
5. Commodities available only from a single source.

The District may purchase a new motor vehicle, other than a school bus, without soliciting bids if, at the time of the purchase, the:

- a. Purchase is from a motor vehicle dealer licensed in Arkansas;
- b. Purchase price of the motor vehicle does not exceed the fleet price awarded by the Office of State Procurement; and
- c. Motor vehicle to be purchased is the same make and model motor vehicle as the make and model the fleet price was awarded for by the Office of State Procurement.

Prospective bidders, offerors, or contractors may appeal to the district's superintendent if they believe the district failed follow district bidding and purchasing policy or state law.

Any award of a contract shall be subject to revocation for ten (10) working from:

- The initial awarding of the contract; or
- If and appeal is received, resolution of the appeal.

The intent is to provide prospective bidders, offerors, or contractors the opportunity to appeal the bid award if they believe the facts warrant an appeal. Any appeal shall be **in writing by certified mail** and received by the district office, "attention to the superintendent" within seven (7) calendar days following the initial and revocable award of the contract.

If the district receives an appeal of a bid award, they shall notify, in writing, those prospective bidders, offerors, or contractors who have made a written request to the district for notification of opportunities to bid that an appeal has been submitted. The notification shall state:

- that the contract award has been halted pending resolution of the appeal and could be revoked;
- the reasons for the appeal;
- that the recipient of the letter may respond to the protested issues identified in the appeal;
- the date the decision on the appeal will be made and notification sent;
- that if the appeal is upheld, the bidding process will be re-opened;
- that if the bidding is re-opened, changes will be made to the request for bids as necessary to satisfy the reasons for upholding the appeal.

The sole authority to resolve any appeal made relating to this policy shall rest with the superintendent. The superintendent's decision shall be final and conclusive. In the event the district upholds an appeal, the sole responsibility of the district to the aggrieved bidder(s) shall be the re-opening of the bidding process.

The District reserves the right to extend or renew a contract that was previously awarded under the process governed by this policy and law, provided the extension or renewal meet the following criteria.

1. The equipment and services provided under the extended or renewed contract meets or exceeds the specifications of the original bid.
2. The extended or renewed contract agreement complies with the state of Arkansas's documentation requirements.
3. The cost of the extended or renewed contract is the same or less than the original contract.
4. The extension or renewal is approved by the local school board.

Professional Services

The District does not use a bidding process when procuring professional services, Instead, when the District needs to procure professional services, the District shall:

1. Select three (3) qualified firms;
2. Determine the most qualified firm by considering, at a minimum, the:
 - Specialized experience and technical competence of the firm with respect to the type of professional services required;
 - Capacity and capability of the firm to perform the work in question, including specialized services, within the time limitations fixed for the completion of the project;
 - Past record of performance of the firm with respect to such factors as control of costs, quality of work, and ability to meet schedules and deadlines; and
 - Firm's proximity to and familiarity with the area in which the project is located;
3. Negotiate a contract for the project with the most qualified firm.

When negotiating a contract, the District and the selected firm shall jointly prepare a detailed, written description of the scope of the proposed services. If the District is unable to negotiate a satisfactory contract with the firm selected, negotiations with that firm shall be terminated and the District shall negotiate a contract with the next most qualified firm. In the event the District is unable to negotiate a contract with any of the original selected firms, the District shall reevaluate the necessary professional services, including the scope and reasonable fee requirements, and return to step one.

The District encourages firms who provide professional services to submit annual statements of qualifications and performance data to the District. The District shall request any additional information as needed for a particular public project.

MANAGEMENT AND DISPOSAL OF DISTRICT PROPERTY

Definitions

For the purposes of this policy, the following definitions apply:

“Commodities” are all supplies, goods, material, computers, software, machinery and other equipment purchased on behalf of the district having a useful life of more than one (1) year and an acquisition cost of one thousand dollars (\$1,000) or more per unit.

“Fair market value” means the amount a reasonable buyer would be willing to pay for a particular piece of property based on an objective set of criteria, which may include, but are not limited to: any improvements or damage to the property; the demand for similar property; the selling price for the property by the producer of the property or re-sale outlets; and the value of the property as determined by an independent appraiser.

“Real property” is land and whatever is erected or affixed to land, such as structures or buildings.

“Surplus commodities” are those commodities that are no longer needed, obsolete, irreparable, or worn out.

“Surplus real property” is real property that is not presently needed or foreseen to be needed by the District, and that has been authorized for sale as surplus real property by vote of the School Board. Surplus real property may include unused or underutilized facilities.

“Trash” are those items that would otherwise belong to another category of goods or property defined in this policy, but which, due to the property’s age or an act of God, have less value than it would cost to repair the item. Examples could include, but are not limited to, fire damage, vehicle accidents, extreme age, and/or decline in value of the item.

“Unused or underutilized facility” means a school facility or other real property that:

- As a whole or in a significant portion, is not being used for a public educational, academic, extracurricular, or administrative purpose and the nonuse or underutilization threatens the integrity or purpose of the school facility or other real property as a public education facility; and
- Is not subject to either a lease to a third party for fair market value or an executed offer to purchase by a third party for fair market value as of July 30, 2017.

General Policy

The District’s purchases of commodities shall be in accordance with Policy 7.5—PURCHASES AND PROCUREMENT and, to the extent applicable, the procurement requirements of any granting source of funding used to purchase the commodity. The Superintendent shall develop procedures governing the use, management, and dispersal of commodities. At a minimum, the procedures will cover the following topics:

- labeling all commodities;
- establishing adequate controls to account for their location, custody, and security;
- annually auditing the inventory of commodities and updating a listing of such commodities to reconcile the audit with the district’s inventory records. The audit will be documented and account for any transfer and/or disposal of a commodity.
- Disposing of surplus commodities and surplus real property, whether purchased in whole or in part with federal grant funds or with local funds.

The disposal of school property must be for the benefit of the school district and consistent with good business principles.

Disposal of Surplus Commodities

The Board of Directors recognizes that commodities sometimes become of no use to the District and thus meet this policy's definition of surplus commodities.

The Superintendent or designee(s) will determine the objective fair market value (FMV) of surplus commodities. The District will strive to dispose of surplus commodities at or near their FMV.

The Superintendent may declare surplus any commodity with an FMV of less than one thousand dollars (\$1,000). Surplus commodities with an FMV of less than one thousand dollars (\$1,000) will be periodically sold by the most efficient, cost effective means that is likely to result in sales at or near FMV.

The Superintendent may submit a list of surplus commodities deemed to have a FMV of one thousand dollars (\$1,000) or greater to the Board of Directors for authorization to sell such surplus commodities. Once the Board of Directors has authorized the sale of such surplus commodities, the Superintendent or designee(s) may sell that surplus commodity as the need arises. Items with a FMV of one thousand dollars (\$1,000) or greater will be sold by the most efficient, cost effective means that is likely to result in sales at or near FMV. If the Superintendent chooses to dispose of the surplus items by bid, the Superintendent or designee may set a minimum or reserve price on any item, and may reject all bids. The Superintendent or designee is authorized to accept the high bid provided the high bid is at or near FMV without further Board action unless the high bid comes under the jurisdiction of Arkansas ethics legislation, in which case the provisions of A.C.A. §§ 6-24-101–107 would apply.

If attempts at public sales fail to produce any interested buyers or bidders, such remaining unsold commodities may then, at the discretion of the Superintendent, be disposed of as scrap or junk or be donated to appropriate charitable or education related entities. Computer or technology equipment will be cleansed of data prior to disposal.

Disposal of Surplus Real Property

The Board of Directors recognizes that real property it owns sometimes becomes no longer of use to the District and thus meets this policy's definition of surplus real property.

By February 1 of each year, the District shall submit a report to the Division of Public School Academic Facilities and Transportation (Division) that identifies all unused or underutilized school facilities in the District and the unused or underutilized school facilities, if any, that are designated in the District's facilities master plan to be re-used, renovated, or demolished as part of a specific committed project or planned new construction project.

If the Division classifies a District facility or District real property as being unused or underutilized, the District may appeal the Divisions determination to the Commission for Public School Academic Facilities and Transportation (Commission).

The District shall make unused or underutilized public school facilities available for lease for no more than FMV to any open-enrollment public charter school (charter) located within the District's geographic boundaries that makes a request under the charter's statutory right of access unless the District makes an affirmative showing by a preponderance of the evidence to the Commission that:

1. The school facility, or the property to which the school facility is attached, will be needed by the District to accommodate future growth of the District; or
2. Use of the school facility or other real property by a charter would have a materially negative impact on the overall educational environment of an educational campus located within five hundred feet (500') of the school facility or other real property sought to be leased by the charter.

The terms of a lease executed between the District and a charter shall provide that the lease shall be cancelled and be of no effect if the charter:

- a. Fails to use the facility or other real property for direct student instruction or administrative purposes within two (2) years of the effective date of the lease;
- b. Closes, has its charter revoked, or has its charter application denied by the charter authorizer; or
- c. Initially uses the facility or other real property, but then leaves the facility or other real property unused for more than one hundred eighty (180) days.

If requested or agreed to by the charter, The District may sell the unused or underutilized facility or other real property to the charter for FMV.

If the District decides to sell, lease, or otherwise transfer ownership of a District facility, a charter located within the District's geographic boundaries shall have a right of first refusal to purchase or lease the facility for FMV. The charter's right of first refusal shall continue for two (2) years after the date the District last used the school facility or other real property as an academic facility.

If the District decides to sell or lease a District facility or other real property that has been identified by the Division as an unused or underutilized school facility to a third party that is not a charter, then the District may not sell or lease the facility until the later of:

- Two (2) years after the date the facility or other real property is identified by the division as an unused or underutilized public school facility, so long as no charter has claimed a right of access or a right of first refusal; or
- Three (3) years from the date the District facility or other real property has been identified by the division as an unused or underutilized public school facility if the District designated the facility or other real property to be reused, renovated, or demolished as part of a specific committed project or planned new construction project in the District's facilities master plan.

The District may petition the division for a waiver of the time restrictions for the sale or lease of a District's unused or underutilized facility. The petition shall include a statement that the District believes that no charter would be interested in leasing or purchasing the unused or underutilized school facility. If the District receives a waiver, the District may immediately sell, lease, or otherwise dispose of the unused or underutilized facility. The District may appeal the denial by the Division of a waiver to the Commission.

The Superintendent may submit a request to the Board of Directors for authorization to sell surplus real property. Once the Board of Directors has authorized the sale of such surplus real property, the Superintendent or designated individual(s) may sell that surplus real property as the need arises and this policy allows. The Superintendent or designee(s) shall be responsible for getting a determination of the objective FMV of surplus real property. The district will strive to dispose of surplus items at or near their FMV. The real property may be listed for sale with a real estate broker, and the Superintendent or designated individual may contract on behalf of the district to pay the usual and customary sales commission for such transactions, upon sale of the property.

If the Superintendent chooses to dispose of the surplus items by bid, the Superintendent or designee(s) may set a minimum or reserve price on any item, and may reject all bids. The Superintendent or designee is authorized to accept the high bid provided the high bid is at or near FMV without further Board action unless the high bid comes under the jurisdiction of Arkansas ethics legislation, in which case the provisions of A.C.A. §§ 6-24-101–107 would apply.

If attempts at public sales fail to produce any interested buyers or bidders, such remaining unsold real property may then, if agreed to by the Superintendent and Board of Directors, be donated to appropriate education related entities, not-for-profit organizations, the county, city, or incorporated town in accordance with the provisions of state law.

Items obtained with federal funds shall be handled in accordance with applicable federal regulations, if any.

The District may not make a part of the disposal of District real property a covenant that prohibits the sale or lease of former District facilities or other real property to a charter that is located within the District's geographic boundaries.

Disposal of Surplus Real Property After Consolidation

Except as otherwise prohibited by this policy, real property of a consolidated school district that is no longer being used for educational purposes and has not been sold, preserved, leased, or donated two (2) years after the effective date of consolidation shall be made available for use by a publicly supported institution of higher education, a technical institute, a community college, a not-for-profit organization, a county, a city, or incorporated town by the Board of Directors for the following purposes:

- Having the real property preserved, improved, upgraded, rehabilitated, or enlarged by the donee;
- Holding of classes by statutorily authorized education related entities; or
- Providing community programs and beneficial educational services, social enrichment programs, or after-school programs.

Trash

Trash, as defined in this policy, may be disposed of in the most cost efficient or effective method available to the district.

RECORD RETENTION AND DESTRUCTION

It is necessary to maintain district records in a manner that provides for efficient document storage and retrieval and is conducive to eliminating unnecessary record retention. Due to the variety of records that may need to be retained and accessed, the superintendent shall ensure that all staff receive appropriate training to understand this policy. Staff shall also understand the possible ramifications to the district and/or themselves for failure to properly maintain records and follow the requirements contained in this policy.

The superintendent shall be responsible for establishing a schedule for the routine destruction of district records that accommodates the needs of the district. The schedule shall specify the length of retention for any records not specifically delineated by this policy and be distributed to staff on a need-to-know basis according to their respective employment duties and responsibilities. The schedule should accommodate the need for records to be stored as a blend of printed, bound and electronically recorded (e.g., audio tape, video tape, micro-fiche, computer disk) material. The superintendent or designee shall ensure the effective and efficient securing, cataloging, storing, and appropriate scheduled destruction of all records.

The following records categories shall be retained for the time specified.

Board of Education Minutes – forever

Personnel files – forever

Student files – until the student receives a high school diploma or its equivalent, or is beyond the age of compulsory school attendance (Reference policy # 4.38)

Student records of attendance/graduation – forever

Emails – No district policy but retention is per individual practice unless requested to be retained or deleted by the superintendent or technology coordinator.

Documents filed with the IRS, including those required in Policy #7.23-Health Care Coverage and the Affordable Care Act – four (4) years

The superintendent, designee, or technology coordinator, shall be responsible for determining when there is a need to interrupt the routine destruction of records. Due to potential adverse repercussions for the failure to cease the destruction of such records, the person responsible for making a “cessation” decision should be close to the source of the cause precipitating the cessation. When an incident occurs that common sense and/or previous experience indicate could result in legal and/or disciplinary action, the routine destruction of district records relating to the incident must be suspended until such time as the legal and/or disciplinary action, or the likelihood of such action, has concluded. The Federal Rules of Civil Procedure (FCRP) as amended in December of 2006 specifically require litigants to be able to pertinent electronically stored information (ESI). FCRP’s Rule 37 (f) specifically acknowledges the need to for routine deletion of records. The issue becomes one of a “good faith” effort to stop record destruction when necessary. When the superintendent or designee makes the decision to cease the routine disposal of records, staff affected by the decision shall be promptly informed of the decision and the nature of records that are to be retained. Such records shall be retained until the superintendent, designee, or technology coordinator has authorized their destruction. Employee training on the district’s records retention schedule shall specifically include information on the record that may need to be retained do to pending disciplinary or legal actions which otherwise are subject to routine disposal. If an employee has doubt about the need to retain any record otherwise scheduled for destruction, he/she shall consult with the superintendent, designee, or tech coordinator prior to destroying such records.

The records’ storage system devised by the superintendent, designee, or tech coordinator shall be organized in a manner that enables the efficient retrieval of data and documents. The district shall have adequate backup of critical data which is stored electronically. The system shall be communicated to employees in a manner that enables them to understand and follow the system’s requirements.

In retaining and destroying records, no employee shall:

- Destroy, alter, mutilate, conceal, cover up, falsify, or make a false entry in any record that may be connected to a disciplinary matter or lawsuit or to a matter within the jurisdiction of a federal or state agency, in violation of federal or state law or regulations.

- Alter, destroy or conceal a document, or attempt to do so, with the intent to impair the document's availability for use in a disciplinary matter, lawsuit or an official proceeding or otherwise obstruct, influence or impede any lawsuit or official proceeding, in violation of federal or state law or regulations.
- Retaliate or discriminate against an employee who refuses to violate this policy or to coerce or threaten an employee to violate this policy.

Failure to follow the requirements set forth in this policy may result in disciplinary action against the employee(s), up to and including termination. The district's board of directors prohibits and will not tolerate any form of reprisal, retaliation or discrimination against any employee who, in good faith, has attempted to comply with this policy.

INFORMATION TECHNOLOGY SECURITY

The superintendent shall be responsible for ensuring the district has the necessary components in place to meet the district's needs and the state's requirements for information technology (IT) security. To aid the superintendent in creating, monitoring, and updating the District's IT Security system, the superintendent shall appoint an information security officer (ISO). The ISO shall be responsible for:

- a) Overseeing the District-wide IT security system;
- b) Development of District IT policies and procedures;
- c) Development and leading of employee training on the IT Security requirements;
- d) Ensuring compliance with the adherence to the Arkansas Department of Education (ADE) IT Security standards.

The ISO shall work with other IT staff, the superintendent, and district management appointed by the superintendent to develop a District IT Security system necessary to meet the requirements of this policy and ADE's standards. The IT security system shall contain the necessary components designed to accomplish the following:

1. The District IT security system shall contain mechanisms, policies, procedures, and technologies necessary to prevent disclosure, modification, or denial of sensitive information.

For the purposes of the IT Security system, "sensitive data" is any and all student and employee data that is either personally identifiable information (PII) or any non PII information that, if assembled together, would allow a reasonable person to identify an individual. Sensitive data includes, but is not limited to:

- Student personally identifiable information, except as allowed by the Family Educational Rights and Privacy Act (FERPA); and
- Employee personally identifiable information, except as required by Ark. Code Ann. § 6-11-129.

All District employees having access to sensitive information shall receive annual IT security training, which shall emphasize the employee's personal responsibility for protecting student and employee information.

2. Physical access to computer facilities, data rooms, systems, networks and data will be limited to those authorized personnel who require access to perform assigned duties.

User workstations shall not be left unattended when logged into sensitive systems or data that includes student or employee information. Workstation settings shall be set for automatic log off and require a password for the system to restore from screensavers.

All equipment that contains sensitive information shall be secured to deter theft. No sensitive data shall be retained on laptops and/or remote devices (home computer,

thumbdrives, cellphones, CDs, etc.) unless it is encrypted in accordance with the Arkansas State Security Office's Best Practices.

Server rooms and telecommunication rooms/closets shall be protected by appropriate access control. The rooms shall be segregated from general school or District office areas to restrict access. Server room access control shall be enforced using industrial locks keyed separately from any other room on campus and keys are limited to IT staff and maintenance to allow unescorted access only to IT or management staff who require the access to perform their job functions.

3. Network perimeter controls will be implemented to regulate traffic moving between trusted internal (District) resources and external, untrusted (internet) entities. All network transmission of sensitive data shall enforce encryption where technologically feasible.

The District shall maintain a network configuration management program that includes at a minimum:

A network diagram identifying all connections, addresses, and purpose of each connection including management approval of all high risk internetfacing ports such as mail (SMTP/25), file transport protocol (FTP/20-21), etc.

All wireless access shall require authentication. The DISTRICT wireless networks will deploy network authentication and encryption in compliance with the Arkansas State Security Office's Best Practices. Scans for rogue wireless devices will be conducted at a minimum monthly. Any Rogue wireless device shall be disabled.

Remote access with connectivity to the District internal network shall be achieved using encryption.

Appropriate WARNING BANNERS shall be implemented for all access points to the District internal network.

4. System and application access will be granted based upon the least amount of access to data and programs required by the user in accordance with a business need-to-have requirement.

The District shall enforce strong password management for:

- Employees and contractors as specified in Arkansas State Security Office Password Management Standard.
- Students as specified in Arkansas State Security Office K-12 Student Password Management Best Practice.

User access shall be limited to only those specific access requirements necessary for an employee to perform his/her job functions. Where possible, segregation of duties shall be utilized to control authorization access.

User access shall be granted and terminated upon timely receipt of a documented access request/termination. All access requests shall require approval by the ISO or designee. Ongoing access shall be reviewed for all users at a minimum annually.

IT administrator privileges for operating system(s), database(s), and applications shall be limited to the minimum number of staff required to perform these sensitive duties.

5. Application development and maintenance for in-house developed student or financial applications will adhere to industry processes for segregating programs and deploying software only after appropriate testing and management approvals.

Any custom-built student or financial applications or supporting applications that interface, integrate with, or provide queries and reporting to/from student or financial systems shall be developed using a system development life cycle approach that incorporates at a minimum:

- a) Planning, requirements, and design;
- b) User acceptance testing (UAT);
- c) Code reviews; and
- d) Controlled migration to production.

Any changes to core or supporting applications that provide student or financial processing or reporting shall be implemented in a controlled manner that includes at a minimum:

- Documentation of any change, including changes to both infrastructure and application;
- Management approval of all changes; and
- Controlled migration to production, including testing as appropriate.

6. Monitoring and responding to IT related incidents will be designed to provide early notification of events and rapid response and recovery from internal or external network or system attacks.

The District shall develop and maintain an incident response plan to be used in the event of system compromise that shall include:

- a) Emergency contacts;
- b) Incident containment procedures; and
- c) Incident response and escalation procedures.

7. To ensure continuous critical IT services, the District ISO will develop a business continuity/disaster recovery plan appropriate for the size and complexity of the District IT operations.

The district-wide business continuity plan shall include at a minimum:

- Procedures for performing routine backups at least weekly and the storage of backup media at a secured location other than the server room or adjacent facilities. Backup media shall be stored off-site a reasonably safe distance from the primary server room and retained in a fire resistant receptacle.

- A secondary backup processing location, such as another School or District building, shall be identified.
- A documented calling tree with emergency actions to include:
 - Recovery of backup data;
 - Restoration of processing at the secondary location; and
 - Generation of student and employee listings to ensure an accurate head count.

8. Server and workstation protection software will be deployed to identify and eradicate malicious software attacks such as viruses, spyware, and malware.

Spyware and virus protection software shall be installed, distributed, and maintained on all production platforms, including:

- a) File/print servers;
- b) Workstations;
- c) Application and database servers.

Malicious software protection shall include:

- Weekly update downloads;
- Weekly scanning;
- The malicious software protection to be in active state (realtime) on all operating servers/workstations.

All security-relevant software patches shall be applied within thirty (30) days and critical patches shall be applied as soon as possible.

FOOD SERVICE PREPAYMENT

Meal Charges

The district does not provide credit for staff or students to charge for meals, a la carte, or other food and beverage items available for purchase in the school food service areas. Meals, a la carte, or other food and beverage items may be purchased by either providing payment for the items at the time of receipt or by having a prepaid account with the District that may be charged for the items. Staff and parents, or students choosing to do so, may pay in advance for meals, a la carte, or other food and beverage items through any of the following methods:

- Submitting cash or check payment at the cafeteria;
- Depositing funds through the District's online service;

A student's parents will be contacted by authorized District personnel regarding a student's prepaid account balance by phone call, email, or elementary Monday folders.

Alternative Meals

The District provides alternative meals at no cost to students whose accounts do not have enough funds to purchase a meal. An alternate meal will be provided to students at no cost (e.g. cheese sandwich, fruit, and milk).

Students who have submitted proper documentation to receive a meal modification in accordance with Policy 4.50—SCHOOL MEAL MODIFICATIONS shall receive the same type of substitution for an alternative meal.

A copy of this policy must be communicated in writing at least once to all households at the start of each school year and to households of students who transfer to the school during the school year. Some suggestions on communication methods are to include a copy of the policy in:

- Student enrollment materials;
- Print versions of student handbooks; or
- Notification methods on applying for free or reduced price meals.

The United States Department of Agriculture (USDA) does not consider providing a copy of this policy only in electronic format to satisfy the communication requirement.

A written copy of this policy must be provided to all staff responsible for policy enforcement. This includes:

- A. School food service professionals;
- B. Staff involved in notifying families of low prepaid account balances;
- C. School social workers;
- D. School nurses; and
- E. The LEA homeless student liaison.

DISPOSAL OF NON-NEGOTIATED CHECKS OR UNCLAIMED PROPERTY

State law specifies how the district is to dispose of retained funds in the form of issued but non-negotiated checks that have been not been presented for payment within one calendar year. The district shall dispose of these retained funds in accordance with the law and remit the amount of all non-negotiated checks to the Unclaimed Property Division of the Arkansas Auditor's Office.

The district shall make a good faith effort to return physical items that have been left on district property to their rightful owners. When contact information is known for the owner of an item of a non-perishable nature left at the district, the district shall use the information to attempt to contact the owner to inform him/her of the location of the item. Owners of such items shall be given at least three weeks to pick up the item he/she left at the district. If the owner fails to pick up the item within the time allotted, the district may dispose of the item in a manner of its choosing.

The district is under no obligation to retain an abandoned, perishable item left on district property.

Notes: The first paragraph of this policy is short, but it has great importance especially if your district has not been submitting reports as the law requires. Checks are considered to be non-negotiated when they have not been paid by the bank from the school district's checking account and shown as cleared on the school district's bank statement. Funds are considered "unclaimed" after a check has been issued and mailed, but is not presented for payment at the bank or appear on the bank statement in the 12 month period after it has been issued. Districts are required to file annual reports by October 31.

The state auditor's website <http://www.auditorjimwood.org/index.html> has a section that does a good job of explaining the requirements. Additionally, because the code listed as legal references for this policy are not in the new law book, they are available on our policy update website.

ELECTRONIC FUND TRANSFERS

District funds shall only be disbursed by the district treasurer upon the receipt of checks or warrants signed by the District Board of Directors' Disbursing Officer and the Superintendent or through the electronic transfer of funds. Any electronic transfer of funds must be initiated by the District and authorized in writing by both the Disbursing Officer of the school district Board of Directors and the Superintendent.

For the purposes of this policy, "initiated by the District" means the District controls both the timing and the amount of the funds transfer.

The district treasurer shall maintain evidence of authority for the disbursement in the form of invoices, payrolls that conform with written contracts on file in his/her office, or other appropriate documentation indicating an authority to disburse District funds.

"Other appropriate documentation" includes one-time, signed authorization for recurring transactions. The Board of Directors Disbursing Officer must pre-authorize the electronic transfer of funds for non-recurring transactions which can be accomplished by a signed authorization or an email authorizing such a disbursement of funds.

PRIVATE SPONSORSHIP OF EXTRACURRICULAR EVENTS

The Superintendent, or designee, may negotiate for the private sponsorship of an event to take place during the time allotted for a half-time break of any of the District's interscholastic activities. The amount of time for a half-time break shall not be extended for the event.

The school district shall not discriminate against potential sponsors based on political affiliation, religion, or perceived message. The superintendent, or designee, may decline sponsorship for any of the following reasons:

- The sponsored event would conflict with school or school group presentations;
- The proposed event would be logistically impracticable due to the estimated time, required materials for the event, or for other reasons associated with the implementation of the event;
- The proposed event would make continuation of the interscholastic activity impracticable due to residual mess/trash resulting from the activity; or
- The proposed event would present an unacceptable safety risk to students or viewing audience.

The superintendent's, or designee's, decision to accept or decline the proposed sponsored event shall be final.

Any potential sponsor shall be required to demonstrate proof of an in force, minimum face value one million dollar (\$1,000,000) general liability insurance policy that would cover the event. The sponsor must also agree to indemnify the school against any damages to school property, school employees, students, or bystanders that arise as a result of the sponsored event as well as from any law suits that are filed in response to such damages.

There shall be no live or recorded speech, music, or other media provided by the sponsor used during the sponsored event. A member of the school's administration shall announce the name of the sponsor of the event and shall be present to assist in conducting the event. The school administrator shall be a neutral participant and shall only make content neutral statements during the event. To meet this standard, the administrator shall not promote or act in a manner that creates the appearance, or that could give the impression, that the District sponsors, endorses or otherwise agrees with the product, person/group, or event being promoted by the sponsor. No school employee may act as the representative of a sponsor or wear attire/apparel that is provided by the sponsor or that could be interpreted as promoting the sponsor's interests. Employees or representatives of/affiliated with the sponsor may be present at the event and stand with the member of school administration who is announcing and conducting the event; such employees/representatives of the sponsor may wear clothing identifying them as sponsors of the event.

The superintendent, or designee, shall have the authority to regulate the time, place, and manner of the distribution of promotional materials by the event sponsor. "Promotional materials" includes, but is not limited to, pamphlets, pens/pencils, sports equipment

(whether miniature or full sized), or clothing. The event sponsor shall provide the superintendent, or designee, with a complete list of the types of promotional materials the event sponsor intends to distribute at the event so that the superintendent, or designee, may make an informed decision on the time, place, and manner of distribution that would result in the least amount of disturbance with the interscholastic activity.

The superintendent, or designee, should take the following into account when determining the best time, place, and manner of distribution of promotional materials:

- Whether the promotional materials could be a distraction to participants in the interscholastic activity due to the promotional material emitting light or noise;
- Whether the promotional materials have a high possibility of being able to be used against participants of the interscholastic activity to attempt to alter the outcome of the activity;
- The possibility that the promotional materials would be left by recipients to become litter; and
- The possibility that the promotional materials would divert the attention of the audience from the interscholastic activity.

The superintendent, or designee, shall limit the distribution of promotional materials to audience members when they are entering the school building/arena, during the sponsored half-time event, and/or when they are leaving the school building/arena. The superintendent's, or designee's, restrictions on the time, place, and manner of promotional materials shall be final.

Any funds received through private sponsorship shall be placed in the District's Activity Account. The superintendent, or designee, should follow the policy for receiving public gifts or donations when negotiating the sponsorship amount, as set forth in Policy 6.3—Public Gifts and Donations to the Schools.

HEALTH CARE COVERAGE AND THE AFFORDABLE CARE ACT

Definitions

“Dependant”, for purposes of this policy, means an employee’s child(ren) and/or spouse who are enrolled by the employee in health care coverage through the District’s health care plans.

“Full-time employee”, for purposes of this policy, means an employee in a position requiring on average thirty (30) hours of actual performance per week during the annual school year.

“Responsible individual” means a primary insured employee who, as a parent or spouse, enrolls one or more individual(s) in health care coverage through the District’s health care plans.

"Variable hour employee", for the purposes of this policy, means an individual who has no base minimum number of hours of performance required per week.

Health Insurance Enrollment

All full time District employees are eligible to enroll themselves; their spouse, so long as the spouse is not otherwise eligible for insurance through his/her employer's sponsored plan; and their child(ren) in one of the insurance plans through the Public School Employee Life and Health Insurance Program (PSELHIP). Variable hour employees are not eligible to enroll in a PSELHIP plan. If a variable hour employee’s measurement period finds that the employee averaged thirty (30) or more hours per week, then the employee is treated as a full time employee rather than a variable hour employee and is eligible for health insurance. New full time employees have sixty (60) days following the start date of the employee’s contract to elect to enroll in a PSELHIP plan; all new employees shall be informed in writing of the start date of the employee’s contract and that the employee has sixty (60) days from that date to elect PSELHIP coverage. Coverage for new employees who choose to enroll in a PSELHIP plan shall take effect on the first of the month following the date on the enrollment application. Coverage shall be in effect until the end of the calendar year. Employees who experience a Qualifying Status Change Event have sixty (60) days from the date of the Qualifying Status Change Event to file an application to change coverage information. All employees who continue to be eligible may elect to continue coverage and make changes to their PSELHIP plan for the following plan year during the yearly open enrollment period.

The District shall ensure all employees are provided education annually on the advantages and disadvantages of a consumer-driven health plan option and effective strategies of using a Health Savings Account (HSA).

District Contribution to Premiums

At a minimum, the District shall distribute the statutorily required contribution rate to all employees who are enrolled in one of the PSELHIP plans, which shall include any mandatory increases to the contribution rate due to increases to the salary schedule. In accordance with the State Health Insurance Portability Rules (SHIP), the District shall continue to pay the premium contribution for an employee who transfers to another Arkansas school district that also participates in the SHIP through August 31 of the calendar year the employee leaves the district so long as the employee:

1. Completes his/her contract with the District;
2. Provides the District with notice that the employee is transferring to another district by no later than the Friday following the last student contact day;
3. Provides the District with proof of employment at another Arkansas district; and
4. Has the employee portion of the premium deducted from his/her end-of-year checks or pays the District business office the employee’s portion of the premium by the 15th of both July and August.

Measurement Method of Employee Hours

The District uses the look-back method for determining if an employee qualifies as a full-time employee.

W-2

For all full-time employees who are enrolled in a PSELHIP plan, the District shall indicate in box twelve (12) of the employee's Form W-2 the cost of the employee's health care coverage by using code "DD".

IRS Returns

The District will electronically file with the IRS by March 31 of each year the forms required by the IRS on the health insurance coverage of each full-time employee for the previous calendar year, whether or not the full-time employee participates in a health insurance plan through the PSELHIP.

Statement of Return

The District shall send to each full-time employee a Statement of Return (Statement) regarding the IRS Return filed on the employee. The Statement shall contain: The District's name, address, and Employer Identification Number (EIN) as well as a copy of the IRS Return filed on the employee. The District shall send a copy of the Statement to the employee on or before January 31 of the calendar year following the calendar year the information in the Statement covers. The District shall send only one Statement to the household of an employee who meets the definition of a responsible individual that will include all requisite information for both the responsible individual and the responsible individual's dependent(s). The Statement will be mailed to the employee's address on record.
