

SIKESTON PUBLIC SCHOOLS EMPLOYEE HEALTH PLAN

*****IMPORTANT REMINDERS*****

- HealthScope is the plan's third party administrator who files claims and keeps records for the plan. Sikeston Public Schools employees have a dedicated Customer Service unit to assist with benefit questions. This number is located on the back of your card.
- HealthLink is the plan's network, with lower out of pockets cost and deeper discounts for services at Missouri Delta and SEHealth. When searching for a doctor on the HealthLink website choose Open Access III. St. Francis Physicians will be included. You will need to confirm with the Physician if he/she is employed by St. Francis Medical Center.
- St. Francis Medical Center and employed physicians are out of network.
- For the PPO Plan, Lab tests are covered 100% at Missouri Delta or by choosing Lab Corp. If you are not at Missouri Delta, request that your labs be sent to Lab Corp to receive the full benefit.
- Diabetes Value Based Benefits - diabetic supplies and medications are covered 100%, no copay, through the Pharmacy benefits.
- Preferred Drug List - always reference the preferred drug list to maximize plan Pharmacy benefits.
