

ANIMAL ASSIGNMENT ONLINE

For the final 2 weeks, complete the following assignment using the guidelines below.

First choose **ONE** from the category of animals listed here..

Sponges
Worms
Cnidarians
Arthropods
Echinoderms
Mollusks
Birds
Reptiles
Mammals
Fish
Amphibians

Next create a **slide show, movie, story, or song** about your chosen animal group above. Be as creative as you can to create a unique and interesting project. The assignment must include the following criteria listed below.

1. Name of your category
2. At least 3 pictures of animals from your category
3. An explanation of what type of environment or place where it lives
4. Describe how it reproduces
5. Explain at least 2 special body features or parts that help it survive
6. Tell whether it is an invertebrate or vertebrate and why

Attach and submit the final project to the google classroom post online.

Have a great summer!
