**LEAD & COPPER RULE MONITORING AND REPORTING VIOLATION MADATORY
LANGUAGE-TIER III**

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

MIDWAY ISD has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, section 290, subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we are doing to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During the period of June 1- September 30, 2017, we did not test for lead and copper and therefore cannot be sure of the quality of your drinking water during that time. Lead and Copper must be tested quarterly and we failed to take any samples. We expect to complete the testing before November 10, 2017. Thus, we are working to correct the problem. For more information, please contact Randel Beaver, School Superintendent, at 940-476-2215.

Please share this information with all other people who drink this water, especially those who may not have received this notice directly.

This notice is being sent to you by Midway ISD Private Water Supply ID No. 0390020
