Updated Drop-off Procedures August 2018

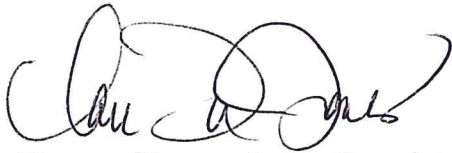

Preschool/Head Start Parents

We would like to inform you of an update on how ABC Preschool and Head Start students are to be dropped off on our campus. When dropping your child off please enter from the High School side of the campus. From this side of the campus you will need to take the gravel road from the student parking lot, back to the gym parking lot to the drop off location. Once you have dropped your child off please follow the directional arrows back around the parking lot. Please take the same gravel road back to student parking exiting on Edna. We ask that you work with us on this matter as it is to ensure child safety while our buses drop off students on the elementary side of the campus. If your child arrives later, after 7:55 a.m., you shall check in at the Elementary office and receive a visitors badge. Please be aware that all campus doors are maglocked and you will not be able to enter without a pass.

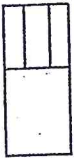

High School/Junior High Parents:

If you are dropping off a Junior/Senior High student please do so in the designated area. The proper location for drop off is in the staff parking lot next to the High School. Please do not use the Central office parking lot as a drop off location.

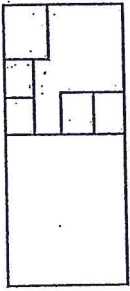

Thank you for your assistance in this matter.

Vanessa Thomas Jones, Superintendent
