CURRICULUM AND INSTRUCTION

5.1—EDUCATIONAL PHILOSOPHY

The school exists for the students it serves. We believe that the youth of this community are its most valuable resource; therefore the aim of this school is to provide the best educational opportunities that we can for them.

The following are the goals of the Nettleton School policies as they relate to the governance of students:

1. To provide a structure for the management of the school as it directly affects students that promotes uniformity of operation throughout the system.
2. To insure the maintenance of order and discipline by clearly defining rules of conduct for students that are fair, reasonable, concise and easy to understand. The rules and regulations for carrying out these policies shall be made available to students and their parents.
3. To recognize the rights and privileges of each individual student in the school system. However, we equally recognize that individual rights stop where the rights of the group begins.
4. To help implement the school's philosophy of education.
5. To serve as an example of the democratic process.
6. To support equal educational opportunities for all students free from limitations based on ethnic or racial background, gender, religious beliefs, physical or mental conditions.
7. To provide a safe, healthful school environment that is conducive to learning.
8. To seek input from students, faculty, and people in the community in the development of the general philosophy of the school, and its rules and regulations as they affect students.
9. To execute the laws of local, state, and federal governments, and the regulations of their agencies.

REVIEW OF STUDENT POLICIES

The committee for development of student policies will meet in the spring of each year to review the student policy book to ensure the policies are consistent with state and federal laws, developing case laws, and Department of Education guidelines.

Any parent, teacher or student may request a hearing to consider revision of the policies or particular provisions of the policies. All requests must be made in writing to the building principal and must state which policy or policies the hearing is to consider. All requests will be acted upon as quickly as possible.

Date Adopted: June 29, 2010

Last Revised:

5.2—PLANNING FOR EDUCATIONAL IMPROVEMENT

Each school in the district shall develop a comprehensive school improvement plan (CSIP) to address deficiencies in student performance based on analysis of students' grade-level State assessments and other relevant data. The purpose of each CSIP shall be to ensure that all students meet the state assessment standards established by the State Board of Education, as well as student achievement goals established by the District. A cumulative review of all academic improvement plans shall also be part of the data used to develop the CSIP. Each CSIP shall be developed with administrator, teacher, other school staff, parent, community, and student (when appropriate) input and shall have as one of its components a plan for a parental involvement program. Professional development activities are to be designed to meet the needs identified in each schools' CSIP. Each CSIP is to be reviewed annually and revised to meet the changing needs reflected in student data.

Any school in the district identified by the Arkansas Department of Education (ADE) as failing to meet the established levels of academic achievement on the state's assessments shall revise its CSIP.

The district shall develop, with appropriate staff and community input, a comprehensive district improvement plan (CDIP). The CDIP shall coordinate the actions of the various CSIPs within the district. The CDIP shall align district resources to help ensure all of its students attain proficiency on the State assessments.

Last Revised: June 21, 2016

5.3—CURRICULUM DEVELOPMENT

Sequential curricula should be developed for each subject area. Curricula are to be aligned with the curriculum frameworks and used to plan instruction leading to student proficiency on Arkansas' content standards. Curricula should be in alignment with the District's vision, mission, goals, and educational philosophy. Student achievement is increased through an integrated curriculum that promotes continuity and a growth in skills and knowledge from grade to grade and from school to school. Therefore, the Board desires that unnecessary duplication of work among the various grades and schools be eliminated and that courses of study and their corresponding content guides be coordinated effectively.

The Board of Education is responsible for reviewing and approving all instructional programs offered by the District as well as approving significant changes to courses or course materials before they are implemented. The Superintendent is responsible for making curriculum recommendations.

Each school shall review each curriculum area annually to address the continued relevancy, adequacy, and cost effectiveness of individual courses and instructional programs and to ensure each area is aligned with the current curriculum frameworks and course content standards approved by the State Board of Education. Each school's administration shall implement a monitoring process to ensure that the instructional content of each course offered is consistent with the content standards and curriculum frameworks approved by the State Board of Education.

In addition to the requirements listed above, the district's administration shall work with staff as may be appropriate to ensure a successful transition to the implementation of the Common Core State Standards.

FEES, FINES, AND CHARGES

Policy

The school district has the responsibility for providing free and appropriate instructional programs for each of its students. The student has the responsibility to provide normal care for all instructional equipment, materials or supplies which are furnished by the district.

Procedures

1. No students shall be required to purchase textbooks or textbook material nor pay any fee as a requisite to receiving instruction in any course or class which is a part of a school's regular curriculum.
2. Students may be required to purchase materials used in any classroom project if the product of the activity becomes the personal property of the student when completed.
3. Students may participate voluntarily in the purchase of subscriptions to magazines which have a supplementary instructional value to a particular course or class and if the magazine becomes the personal property of the student when received. No student will be denied the use of materials because of inability to pay.

4. Students may be assessed moderate fines or proper charges for borrowed, damaged or lost instructional and non-instructional books, equipment, and materials.

5.4—SCHOOL IMPROVEMENT TEAMS

A team structure is officially incorporated into the school improvement plan. New school administrators shall receive a description of the teams' purposes and how each team is constituted; In addition, each new administrator shall receive training on methods for effective teams.

All teams shall create work plans for the year, which shall include specific work products for the team to produce. To aid in maintaining the work plan, all teams shall develop an agenda and keep minutes for each meeting. The school principal shall be responsible for maintaining a file of the agendas, work products, and minutes of all teams.

Team meetings shall take place outside of the student instructional day.

Leadership Team

Each school shall have a Leadership Team that consists of members that include:

1. The principal;
2. The chair of each Instructional Team;
3. The school guidance counselor;
4. A instructional facilitator; and
5. Other key professionals designated by the principal.

The Leadership Team shall meet for a minimum of one (1) hour at least two (2) times each month during the school year. Based on school performance data and aggregated classroom observation data, the Leadership Team shall make decisions and recommendations on curriculum, instruction, and professional development; in addition, the Leadership Team shall serve as a conduit of communication to the rest of the faculty and staff.

Instructional Teams

The teachers in each school shall belong to an instructional team. The instructional teams shall be organized by:

- a. Grade level;
- b. Grade level cluster; and/or
- c. Subject area.

Each Instructional Team shall appoint a chair for the school year who shall conduct the team meetings and shall be part of the school Leadership Team. Each Instructional Team shall meet for a minimum of forty-five (45) minutes at least two (2) times a month during the school year.³

The purpose of the Instructional Teams is to develop and refine units of instruction and review student learning data.

5.5—SELECTION/INSPECTION OF INSTRUCTIONAL MATERIALS

The use of instructional materials beyond those approved as part of the curriculum/textbook program must be compatible with school and district policies. If there is uncertainty concerning the appropriateness of supplemental materials, the personnel desiring to use the materials shall get approval from the school's principal prior to putting the materials into use.

All instructional materials used as part of the educational curriculum of a student shall be available for inspection by the parents or guardians of the student. For the purposes of this policy, instructional materials is defined as instructional content provided to the student regardless of its format, including printed or representational materials, audio-visual materials, and materials in electronic or digital formats. The term does not include academic tests or academic assessments.

Parents or guardians wishing to inspect instructional materials used as part of the educational curriculum for their child may schedule an appointment with the student's teacher at a mutually agreeable time. Parents/guardians wishing to challenge the appropriateness of any instructional materials shall follow the procedures outlined in Policy 5.6—CHALLENGE OF INSTRUCTIONAL/SUPPLEMENTAL MATERIALS.

The rights provided to parents under this policy transfer to the student when he/she turns 18 years old.

Legal Reference: 20 USC § 1232h (a), (b), (c) [NCLB Act of 2001, Part F, Section 1061 (c) (1)(C)(i)(ii), (2)(A)(i), (5)(B), (6)(A)(C)]

5.6—CHALLENGE TO INSTRUCTIONAL/SUPPLEMENTAL MATERIALS

Instructional and supplemental materials are selected for their compatibility with the District’s educational program and their ability to help fulfill the District’s educational goals and objectives. Individuals wishing to challenge or express concerns about instructional or supplemental materials may do so by filling out a *Challenge to Instructional Material* form available in the school’s office.

The contesting individual may present a copy of the form to the principal and request a conference be held at a time of mutual convenience. Prior to the conference, the principal shall consult with the teacher regarding the contested material. In the conference, the principal shall explain to the contesting individual the criteria used for the selection of the material and its relevancy to the educational program as well as any other pertinent information in support of the use of the material.

Following the conclusion of the meeting, the principal shall have five (5) working days to submit a summary of the concerns expressed by the individual and the principal’s response to those concerns to the Superintendent.

If the contesting individual is not satisfied with the principal’s response, the individual may, after the five (5) working day period, request a meeting with the Superintendent where the individual shall present the same *Challenge to Instructional Material* form previously presented to the principal. The Superintendent shall explain to the contesting individual the criteria used for the selection of the material and its relevancy to the educational program as well as any other pertinent information in support of the use of the material.

Following the conclusion of the meeting, the Superintendent shall have five (5) working days to write a summary of the concerns expressed by the individual and the Superintendent’s response to those concerns. The Superintendent shall create a file of his/her response along with a copy of the principal’s response and a copy of the contesting individual’s *Challenge to Instructional Material* form.

If, after meeting with the Superintendent, the contesting individual is not satisfied with the Superintendent’s response regarding the appropriateness of the instructional or supplemental material, he/she may appeal the Superintendent’s decision to the Board. The Superintendent shall present the contesting individual’s *Challenge to Instructional Material* form to the Board at the next regularly scheduled meeting along with the written responses to the challenge. The Board may elect, if it so chooses, to hear brief verbal presentations from the parties involved in the challenge.

The Board shall decide at that meeting or their next regularly scheduled meeting whether to retain the material, limit the availability of the material, or remove the material from the school. The Board’s primary consideration in reaching its decision shall be the appropriateness of the material for its intended educational use.

5.7—SELECTION OF LIBRARY/MEDIA CENTER MATERIALS

The ultimate authority for the selection and retention of materials for the schools' media centers rests with the Board of Education which shall serve as a final arbiter in resolving a challenge to any media center materials. Licensed media center personnel shall make the initial selections in consultation with school and district licensed staff. Materials selected shall be in accordance with the guidelines of this policy.

The purpose of the schools' libraries/media centers is to supplement and enrich the curriculum and instruction offered by the District. Promoting the dialogue characteristic of a healthy democracy necessitates the maintenance of a broad range of materials and information representing varied points of view on current and historical issues. In the selection of the materials and resources to be available in each library/media center consideration will be given to their age appropriateness. Materials should be available to challenge the different interests, learning styles, and reading levels of the school's students and that will help them attain the District's educational goals.

Selection Criteria

The criteria used in the selection of media center materials shall be that the materials:

1. Support and enhance the curricular and educational goals of the district;
2. Are appropriate for the ages, learning styles, interests, and maturity of the schools' students, or parents in the case of parenting literature;
3. Contribute to the examination of issues from varying points of view and help to broaden students understanding of their rights and responsibilities in our society;
4. Help develop critical thinking skills;
5. Are factually and/or historically accurate, in the case of non-fiction works and/or serve a pedagogical purpose;
6. Have literary merit as perceived by the educational community; and
7. Are technically well produced, physically sound (to the extent appropriate), and represent a reasonably sound economic value.

Retention and Continuous Evaluation

Media center materials shall be reviewed regularly to ensure the continued appropriateness of the center's collection to the school's curriculum and to maintain the collection in good repair. Those materials no longer meeting the selection criteria, have not been used for a long period of time, or are too worn to be economically repaired shall be withdrawn from the collection and disposed of. A record of withdrawn media materials including the manner of their disposal shall be maintained for a period of three years.

Gifts

Gifts to the media centers shall be evaluated to determine their appropriateness before they are placed in any media center. The evaluation shall use the same criteria as for all other materials considered for inclusion in the media centers. Any items determined to be unacceptable shall be returned to the donor or disposed of at the discretion of the media specialist. The media centers shall have a list of desired items to give to prospective donors to aid them in their selection of materials to donate.

Challenges:

The parent of a student affected by a media selection, or a District employee may formally challenge the appropriateness of a media center selection by following the procedure outlined in this policy. The challenged material shall remain available throughout the challenge process.

Before any formal challenge can be filed, the individual contesting (hereinafter complainant) the appropriateness of the specified item shall request a conference through the principal's office with a licensed media center employee. The complainant shall be given a copy of this policy and the *Request for Formal Reconsideration Form* prior to the conference. The meeting shall take place at the earliest possible time of mutual convenience, but in no case later than five (5) working days from the date of the request unless it is by the choice of the complainant.

In the meeting, the media specialist shall explain the selection criteria and how the challenged material fits the criteria. The complainant shall explain his/her reasons for objecting to the selected material. If, at the completion of the meeting, the complainant wishes to make a formal challenge to the selected material, he/she may do so by completing the *Request for Formal Reconsideration Form* and submitting it to the principal's office.

To review the contested media, the principal shall select a committee of five (5) or seven (7) licensed personnel consisting of the principal as chair and at least one media specialist. The remaining committee members shall be personnel with curriculum knowledge appropriate for the material being contested and representative of diverse viewpoints. The task of the committee shall be to determine if the challenged material meets the criteria of selection. No material shall be withdrawn solely for the viewpoints expressed within it and shall be reviewed in its entirety and not selected portions taken out of context.

The principal shall convene a meeting after a reasonable time for the committee members to adequately review the contested material and the *Request for Formal Reconsideration Form* submitted by the complainant. The complainant shall be allowed to present the complaint to the committee after which time the committee shall meet privately to discuss the material. The committee shall vote by secret ballot to determine whether the contested material shall be removed from the media center's collection. A member from the voting majority shall write a summary of the reasons for their decision. A notice of the committee's decision and the summary shall be given (by hand or certified mail) to the complainant.

If the decision is to not remove the material, the complainant may appeal the committee's decision to the district Board of Directors by filing a written appeal to the Superintendent within 5 working days of the committee's decision or of written receipt of the decision. The Superintendent shall present the original complaint and the committee's decision along with the summary of its reasons for its position plus a recommendation of the administration, if so desired, to the Board within 15 days of the committee's decision. The Board shall review the material submitted to them by the Superintendent and make a decision within thirty (30) days of receipt of the information. The Board's decision is final.

5.8—USE OF COPYRIGHTED MATERIALS

Use of Copyrighted Work in Face-to-Face Classroom

The Board of Education encourages the enrichment of the instructional program through the proper use of supplementary materials. To help ensure the appropriate use of copyrighted materials, the Superintendent, or designee, will provide district personnel with information regarding the “fair use” doctrine of the U.S. Copyright Code as detailed in the “Agreement on Guidelines for Classroom Copying in Not-for-Profit Educational Institutions with Respect to Books and Periodicals” and “Guidelines for Educational Uses of Music.”

Use of Copyrighted Works in Digital Transmissions

Definitions

“Class session” means the length of time provided for students to access the materials necessary for the completion of course assignments and tests. Depending on the copyrighted work’s overall importance to the course, which can vary from a single assignment to an entire course focusing on the copyrighted work, the class session will end on:

- The date set by the teacher for an assignment to be submitted; or
- The date on the school calendar for the end of classes.

“Course packs” are premade compilations of book excerpts; newspaper, magazine, and journal articles; and instructor-authored materials.

“Mediated Instructional activities” includes textbooks, workbooks, and course packs.

“Transmission” is the remote accessing, whether on or off campus, by students of a copyrighted work by means of a closed circuit television, an educational television channel, or in a digital format on a password protected secure webpage.

The District recognizes that advances in technology have resulted in the need for guidelines for the use of copyrighted materials that are transmitted to students through a digital network. While the requirements to use a copyrighted work in a digital transmission have many similarities to those required to use a copyrighted work in a face-to-face classroom, Federal law places several additional requirements on the District’s teachers, IT staff, and librarians for the use of a digitally transmitted copyrighted work. The District is dedicated to providing the tools necessary for teachers, IT staff, and librarians to meet these additional Federal requirements.

The District shall make sure the server where materials are stored is secured, whether the server is located locally or remotely.

The District’s Informational Technologies staff shall develop the proper protocols and train teachers on their use in order to ensure:

1. The transmission of the copyrighted work is limited to only the students enrolled in the course;
 - Each student shall have a unique ID and password for accessing digital courses/materials; or
 - Each course shall have a unique password to access course materials; and
 - The password to access the course materials shall be changed immediately following the close of the course.

2. To prevent students from retaining or further disseminating the copyrighted work for more than one class session;
 - The print function will be disabled;
 - A transparency shall be placed over any literary work, sheet music, or photograph;
 - Audio and video transmissions will be set to be streamed; and
 - The link to the webpage with a copyrighted work shall be deactivated at the end of the applicable class session.

Teachers who wish to provide copyrighted works to students through a digital transmission as part of a digital course as well as teachers wishing to supplement a face-to-face classroom course with a digital transmission must meet applicable copyright statutes and policy 5.11—DIGITAL LEARNING COURSES as well as the following requirements in order to use a copyrighted work:

- A. The use of the copyrighted work(s), whether in whole or in part, must be a part of regular classroom instruction and must be directly related and of material assistance to the course content;
- B. The extent of a copyrighted work that is used must comply with one or more of the following criteria:
 - The entirety of a non dramatic literary or musical work may be used. A non dramatic literary work includes poems and short stories. A non dramatic musical work covers all music that is not part of an opera or musical and does not cover the use of the music video format of a song.
 - Dramatic literary and musical works as well as videos may only be used in limited portions. Dramatic literary and musical works may only be used in the same amount as set forth in the requirements for a face-to-face classroom while videos, including music videos, may only have the portion used that is directly related to the subject of the class session and may not be transmitted in their entirety.
 - Still images or slides that a teacher would have used in the ordinary course of a face-to-face classroom session on a projector or a transparency may be used in a transmission.
 - Works primarily produced or marketed for use in the digital education market may not be transmitted.
 - Works the teacher had knowledge or reasonably believes to be unlawfully made or acquired may not be used.
 - Mediated Instructional activities may not be transmitted.
- C. A statement that works may be subject to copyright shall be placed in at least one of the following areas to provide notice to students of copyright status:
 - Course syllabus;
 - Home webpage for the course;
 - Webpage for the particular class session; and/or
 - webpage with the copyrighted work.

The teacher and the District librarian shall work together when making digital copies of copyrighted work from physical or analog versions and shall fulfill the following requirements:

- I. The amount converted is only the amount allowed by law; **and**
- II. The District has no digital copy of the copyrighted work available; **or**
- III. The District's digital copy of the copyrighted work that is available has technological protections that prevent the use of the copyrighted work in the manner prescribed by law.

The District will not be responsible for any employee violations of the use of copyrighted materials.

Date Adopted: June 29, 2010

Last Revised: June 17, 2014

5.9—COMPUTER SOFTWARE COPYRIGHT

The Nettleton School District shall observe copyright laws governing computer software reproduction. Unless specifically allowed by the software purchase agreement, the Copyright Act allows the purchaser of software to:

1. Make one copy of software for archival purposes in case the original is destroyed or damaged through mechanical failure of a computer. However, if the original is sold or given away, the archival copy must be destroyed;
2. Make necessary adaptations to use the program; and/or
3. Add features to the program for specific applications. These improvements may not be sold or given away without the copyright owner's permission.

The District shall abide by applicable licensing agreements before using computer software on local-area or wide-area networks.

5.10—RELIGION IN THE SCHOOLS

The First Amendment of the Constitution states that “Congress shall make no law respecting the establishment of religion, or prohibiting the free exercise thereof. . .” As the Supreme Court has stated (*Abington School District v. Schempp*, 374 U.S. 203) the Amendment thus, “embraces two concepts—freedom to believe and freedom to act. The first is absolute but, in the nature of things, the second cannot be.” Therefore, it is the Board’s policy that the school system, as an agency of the government, shall be neutral in matters regarding religion and will not engage in any activity that either advocates or disparages religion. The District shall assume no role or responsibility for the religious training of any student.

The need for neutrality does not diminish our school system’s educational responsibility to address the historical role of religion in the development of our culture. Since we live in a diverse society, the District’s goal shall be to address the subject of religion objectively in such a way that it promotes an understanding of, and tolerance for, each other’s religious or non-religious views.

Discussions concerning religious concepts, practices, or disciplines are permissible when presented in a secular context in their relation to an inclusive study of religion or to the study of a particular region or country. The discussions shall be such that they are objective and academically informational and do not advocate nor denigrate any particular form of religious practice.

The teacher in charge of each classroom may, at the opening of school each day, conduct a brief period of silence with the participation of all students in the classroom who desire to participate.*

Students and employees may engage in personal religious practices, such as prayer, at any time, and shall do so in a manner and at a time so that the educational process is not disrupted.

*Legal Reference: A.C.A. § 6-10-115

Date Adopted: June 29, 2010

Last Revised: June 19, 2012

5.11—DIGITAL LEARNING COURSES

Definitions

For the purposes of this policy “Blended Learning” is education in which instruction and content are delivered through supervised instruction in a classroom and online delivery of instruction with some element of student control over time, place, path, or pace.

“Digital Learning” means a digital technology or internet-based educational delivery model that does not rely exclusively on compressed interactive video (CIV). Digital learning includes online and blended learning.

"Instructional Materials" means:

1. Traditional books, textbooks, and trade books in printed and bound form;
2. Activity-oriented programs that may include:
 - a. Manipulatives;
 - b. Hand-held calculators;
 - c. Other hands-on materials; and
3. Technology-based materials that require the use of electronic equipment in order to be used in the learning process.

“Online Learning” is education in which instruction and content are delivered primarily over the Internet. The term does not include print-based correspondence education, broadcast television or radio, videocassettes, compact disks and stand-alone educational software programs that do not have a significant Internet-based instructional component.

“Public School Student Accessing Courses at a Distance” means a student who is scheduled for a full course load through the District and attends all classes virtually.

Digital Course Offerings

The District shall offer one or more digital learning course(s) through one or more District approved provider(s) as either a primary or supplementary method of instruction. The courses may be in a blended learning, online-based, or other technology-based format and shall be tailored to meet the needs of each student.

All digitally offered courses shall meet or exceed the State Board of Education's curriculum standards and requirements and be capable of being assessed and measured through standardized or local assessments. Additionally, the District shall ensure there is sufficient infrastructure to handle and facilitate a quality digital learning environment.

As an approved digital learning provider, the District shall annually determine what District created digital learning courses it will provide to our students. The District may also choose to provide digital learning courses by contracting with outside providers of such courses, who have been pre-approved by the Arkansas Department of Education (ADE). The School Board shall determine the provider method or combination of methods for the District. The Superintendent shall ensure that all digital learning courses provided to District students, regardless of the source of the course, have been approved by ADE.

District created digital courses and any digital courses the district purchases from outside providers shall adhere to the guidelines for the use of digitally transmitted copyrighted materials set forth in Policy 5.8-USE OF COPYRIGHTED MATERIALS as well as applicable statutory requirements.

The District shall require all outside providers to incorporate Policy 5.8 as a condition of the service contract. Failure of the outside provider to abide by Policy 5.8 shall constitute a breach of contract and the outside provider shall be responsible for any costs resulting from such breach.

A student may elect to take any or all of his/her scheduled courses digitally. The student's attendance in his/her digital course(s) shall be determined by the online attendance and time the student is working on the course rather than the student's physical presence at school.

Regardless of any other provisions of this policy, the District may restrict a student's access to digital courses when the student's school principal determines the student's participation in such a course would not be academically appropriate based on the student's past performance in digital courses. Furthermore, the student's school principal may revoke a student's eligibility to continue taking a digital learning course if the student's performance during the semester indicates the student is not succeeding in the course.

Date Adopted: June 29, 2010

Last Revised: June 21, 2016

5.14—HOMEWORK

Homework is considered to be part of the educational program of the District. Assignments shall be an extension of the teaching/learning experience that promotes the student's educational development. As an extension of the classroom, homework must be planned and organized and should be viewed by the students as purposeful.

Teachers should be aware of the potential problem students may have completing assignments from multiple teachers and vary the amount of homework they give from day to day.

Parents shall be notified of this policy at the beginning of each school year.

Last Revised:

5.15—GRADING

Parents or guardians shall be kept informed concerning the progress of their student. Parent-teacher conferences are encouraged and may be requested by parents, guardians, or teachers. If the progress of a student is unsatisfactory in a subject, the teacher shall attempt to schedule a parent-teacher conference. In the conference, the teacher shall explain the reasons for difficulties and shall develop, cooperatively with the parents, a plan for remediation which may enhance the probability of the student succeeding. The school shall also send timely progress reports and issue grades for each nine-week grading period to keep parents/guardians informed of their student's progress.

The evaluation of each student's performance on a regular basis serves to give the parents/guardians, students, and the school necessary information to help effect academic improvement. Students' grades shall reflect only the extent to which a student has achieved the expressed educational objectives of the course.

The grades of a child in foster care shall not be lowered due to an absence from school due to:²

- (1) A change in the child's school enrollment;
- (2) The child's attendance at a dependency-neglect court proceeding; or
- (3) The child's attendance at court-ordered counseling or treatment

The grading scale for Kindergarten in the district uses a skills-based checklist. The grading scale for grades 1-12 in the district shall be as follows.

A = 100 – 90

B = 89 – 80

C = 79 – 70

D = 69-60

F = 59 and below

For the purpose of determining grade point averages, the numeric value of each letter grade shall be

A = 4 points

B = 3 points

C = 2 points

D = 1 point

F = 0 points

The grade point values for Advanced Placement (AP), International Baccalaureate (IB), and approved honor courses shall be one point greater than for regular courses with the exception that an F shall still be worth 0 points.

The final grades of students who transfer in for part of a semester will be determined by blending the grades earned in the district with those earned outside the district. Each final grade will be the sum of the percentage of days in the grading period transferred from outside the district times the transferred grade from outside the district plus the percentage of days in the grading period while in the district times the grade earned in the district.

For example: The grading period had 40 days. A student transferred in with a grade of 83% earned in 10 days at the previous school. The student had a grade of 75% in our district's school earned in the remaining 30 days of the grading period. 10 days is 25% of 40 days while 30 days is 75% of 40 days. Thus the final grade would be $.25 (83) + .75 (73) = 75.5\%$.

REPORTING STUDENT PERFORMANCE

Teachers will communicate personally with the parent(s) or guardian(s) of each student during the school year to discuss the student's academic progress. The district shall, at a minimum, report annually to the parents or guardians of each student the progress of the student toward achieving state expectations for proficiency assistance to each student who is not performing at grade level. (Ark.Code 6-15-1603; 6-15-2004; 6-15-2006)

1. Elementary and secondary teachers shall meet with the parent(s) or guardian(s) of each student at least once a semester through parent-teacher conference, telephone conference, or home visit.
2. Additional parent-teacher communication or correspondence will take place for those students not performing at the level expected for their grade.
3. All grade level conferences with parent(s) or guardian(s) shall be scheduled at a time and place to best accommodate those participating in the conference.
4. The school shall document participation or nonparticipation in required conferences.
5. The Nettleton School District shall offer remediation programs during the school year to those students not performing at grade level.

STUDENT ASSESSMENT

The school district will regularly conduct student testing for the purpose of assessing student academic levels or progress, placing students in special educational programs, measuring student aptitude and interest, and evaluating the district's instructional programs.

1. Nettleton Public Schools will use a variety of assessment methods to determine mastery of subject matter knowledge and the attainment of skills. Teachers are encouraged to use alternative assessment methods (i.e., performance based, portfolios) along with objective and subjective tests to determine if course objectives are being achieved.
2. The school district shall provide for psychological testing of students to determine the need for specialized services and for participation in special education programs. In all cases, due process procedures as determined by state and federal agencies shall be followed and written permission for testing will be obtained from the parents/guardians prior to such testing.
3. The school district will make available to its students in a variety of test instruments by which aptitude and interest can be determined. In most instances, these tests will be administered on a voluntary basis. If school district personnel administer these tests, no charge will be made to the student. The school will provide registration for college entrance examinations.

5.17—HONOR ROLL AND HONOR GRADUATES

HONOR ROLL

Students in grades K-6 who maintain an A for every grading period and subject, will be recognized as honor roll students. Students who maintain As and Bs will be recognized as merit roll students.

HONOR GRADUATES

College Prep Diploma – A college prep diploma will be awarded to students who have completed the graduation core and two (2) units of the same foreign language; four (4) units of math to include Algebra I (or its equivalent), Geometry, Algebra II, and a math beyond Algebra II (Algebra III, Transition to College Math, Trigonometry with Pre-Calculus, College Algebra, AP Calculus, AP Statistics); three (3) science units (two of which must be chosen from Biology, Chemistry, or Physics).

To receive a State of Arkansas Seal on the transcript and diploma denoting College Prep, a student must have a 2.75 or higher grade point average. Requirements for the Arkansas Academic Challenge Scholarship and for unconditional admission to Arkansas colleges and universities can be met with the College Prep Diploma.

2. **Honors Diploma** – In order to qualify as an honor graduate of a public school, students must complete the common core curriculum established by the State Board of Education.

The honors diploma is conceived to recognize students who have achieved high marks in scholarship in high school.

No designation of valedictorian or salutatorian will be made.

Designation of honor graduates is based on meeting the specific curriculum requirements and rank in class by GPA.

No student who has been denied credit in any class due to excessive absences can be designated an honor graduate.

Any student designated as an honor graduate must have been enrolled in an accredited high school for a minimum of eight (8) semesters and must have been in attendance at Nettleton High School the entire senior year.

The 3.50 GPA required for honor graduates must be met by the end of seven (7) semesters to be designated as an honor graduate on any printed material (composite picture, commencement program, etc.). However, the student must meet the 3.50 GPA through eight (8) semesters of high school to remain an honor graduate. If the student falls below the 3.50 GPA at the end of eight (8) semesters, he/she will not be recognized at commencement ceremonies, nor will the student's transcript or diploma denote honor graduate status. At the same time, if a student does not have the 3.50 GPA at the end of seven (7) semesters, but reaches the 3.50 GPA at the end of eight (8) semesters, that student will not be recognized on

any printed material but will be honored at commencement ceremonies, and the transcript and diploma will denote honor graduate status.

Specific Requirements: Twenty-three (23) units total and meet all the State Department of Education graduation requirements listed above, as well as the course requirements for a college prep diploma; in addition, an advanced computer class (college prep) must be completed.

**Honor graduates must complete one math class beyond Algebra II chosen from the list below. He/She must have completed a minimum of seven (7) advanced level courses from the following selections:

- Advanced or Pre-AP English I, II, III, IV, AP English Literature and Composition
- Advanced or Pre-AP Civics, World History, American History, World Civilization to 1660, World Civilization from 1660, AP U.S. History
- Advanced or Pre-AP Algebra I (8th grade), Geometry (9th grade), Pre-AP Algebra II (10th grade); Trigonometry with Pre-Calculus, College Algebra, AP Calculus, AP Statistics
- Advanced or Pre-AP Physical Science, Biology, Chemistry, Physics, AP Biology, AP Chemistry
- Spanish III or above
- Microcomputer Business Applications, Word Processing I (college credit)
- Advanced Music

*Transition to College Math not counted as honors course effective with class of 2012.

Date Adopted: June 29, 2010

5.18—HEALTH SERVICES

The Board believes that healthy children promote a better learning environment, are more capable of high student achievement, and will result in healthier, more productive adults. Therefore, the goal of the District's health services is to promote a healthy student body. This requires both the education of students concerning healthy behaviors, as well as providing health care services to pupils.

While the school nurse is under the supervision of the school principal, the delegation of health care duties shall be in accordance with the Arkansas Nurse Practice Act and the Arkansas State Board of Nursing Rules and Regulations Chapter Five: Delegation of Nursing Care.

5.20—DISTRICT WEB SITE

The Nettleton School District shall maintain a web page to provide information about its schools, students, and activities to the community. This policy is adopted to promote continuity between the different pages on the district web site by establishing guidelines for their construction and operation.

The Nettleton School District web site shall be used for educational purposes only. It shall not create either a public or a limited public forum. Any link from any page on the District's site may only be to another educational site. The web site shall not use "cookies" to collect or retain identifying information about visitors to its web site nor shall any such information be given to "third parties." Any data collected shall be used solely for the purpose of monitoring site activity to help the district improve the usefulness of the site to its visitors.

Each school's web page shall be under the supervision of the school's Web Master and the District's web site shall be under the supervision of the District's Web Master. They shall have the responsibility for ensuring that web pages meet appropriate levels of academic standards and are in compliance with these guidelines and any additional administrative regulations. To this end the District and School Web Masters shall have the authority to review and edit any proposed changes to web pages to ensure their compliance with this policy. All such editing shall be viewpoint neutral.

District and school web pages shall also conform to the following guidelines.

- 1) All pages on the District's web site may contain advertising and links only to educational sources.
- 2) The District's home page shall contain links to existing individual school's web pages and the school home pages shall link back to the District's home page. The District's home page may also include links to educational extracurricular organization's web pages which shall also link back to the District's home page.
- 3) Photos along with the student's name may be posted on web pages unless their parent submits letter of denial to building principal.
- 4) The District's web server shall host the Nettleton District's web site.
- 5) No web page on the District web site may contain public message boards or chat rooms.
- 6) All web pages on the District web site shall be constructed to download in a reasonable length of time.
- 7) The District's home page shall contain a link to a privacy policy notice which must be placed in a clear and prominent place and manner.
- 8) With the exception of students who may retain the copyright of material they have created that is displayed on a District web page, all materials displayed on the District web site are owned by Nettleton School District.
- 9) Included on the District's web site shall be:

- a. Local and state revenue sources;
- b. Administrator and teacher salary benefit expenditure data;
- c. District balances, including legal balances and building fund balances;
- d. Minutes of regular and special meetings of the school board;
- e. The district's budget for the ensuing year;
- f. A financial breakdown of monthly expenditures of the district;
- g. The salary schedule for all employees including extended contract and supplementary pay amounts;
- h. Current contract information (not including social security numbers, telephone numbers, personal addresses or signatures) for all district employees;
- i. The district's annual budget;
- j. The annual statistical report of the district;
- k. The district's personnel policies

The information and data required for 9) above shall be the actual data for the previous two school-years and the projected data for the current school-year.

5.20.1—WEB SITE PRIVACY POLICY

The Nettleton School District operates and maintains a web site for the purpose of informing the citizens of the district about its activities. The web site does not use “cookies” or ISP addresses to collect or retain personally identifying information about visitors to its web site nor is any such information given to “third parties.” Any data collected is used solely for the purpose of monitoring site activity to help the district improve the usefulness of the site to its visitors.

The site serves no commercial purpose and does not collect any information from individuals for such purpose.

Photos along with the student’s name may be posted on web pages unless their parent submits letter of denial to building principal.

The Nettleton School District may choose to display the photograph or video clip of students on the District’s web site, including any page on the site, or in other District publications without further notice. The Nettleton School District also maintains the right to edit the photograph or video clip at its discretion.

The student’s name may be used in conjunction with the photograph or video clip. It is understood, however, that once the photograph or video clip is displayed on a web site, the District has no control over how the photograph or video clip is used or misused by persons with computers accessing the District’s web site.

The site provides for email communication between the District and individuals for the purpose of exchanging information regarding the District and its activities or between teachers and their students. The site may also provide for password protected communication between the District and its staff.

5.21—ADVANCED PLACEMENT and HONORS COURSES

The advanced classes, designated in most subject areas of the curriculum, provide the junior high and high school student, participation in a differentiated coursework beyond the challenge of the regular class requirements. Criteria considered for placement in an advanced class includes:

- Performance on Arkansas standards-based assessments in literacy and math within or above the proficient range,
- A score of 80% or above on a nationally-normed achievement test in the area that applies to the advanced class,
- Semester grades of A's and B's in the subject area that applies to the advanced class,
- Teacher recommendation in the subject area that applies to the advanced class.

A student's progress will be evaluated at the end of each 9-weeks and without adequate academic success, the student may be removed from the advanced class. A student may be reconsidered for enrollment in an advanced class if the above criteria has again been met.

All teachers for advanced placement courses receive training in order for students to be given weighted credit. Students who take advanced placement courses¹ approved for weighted credit by the Arkansas Department of Education shall be graded according to the following schedule:

A=100-90

B=89-80

C=79-70

D=69-60

F=59 and below

For the purpose of determining grade point averages, the numeric value of each letter grade shall be:

A=5 points

B=4 points

C=3 points

D=2 points

F=0 points

For a student to be eligible to receive weighted credit for an AP course, the student's course must have been taught by an Arkansas licensed teacher who has received the appropriate training required by Arkansas statute and ADE Rule or, for an AP teacher, is in the process of completing an Additional Training Plan.

Additionally, for students taking AP courses to receive weighted credit they must take the applicable AP examination after completing the entire course. Credit shall be given for each grading period during the course of the year, but shall be retroactively removed from a student's grade for any course in which the student fails to take the applicable AP exam. Students who do not take the AP exam shall receive the same numeric value for the grade he/she receives in the course as if it were a non-AP course².

“Honors Courses” are those courses that have been approved by a Department of Education Committee as honors courses. Honors courses must stress higher order learning and be offered in addition to curriculum offerings required by the Standards for Accreditation, Arkansas Public Schools.

Students who transfer into the district will be given weighted credit for the AP courses at his/her previous school(s) according to the preceding scale.

Notes: ¹If your board chooses to adopt a policy allowing high school students to take college courses for weighted credit (as provided by A.C.A. § 6-15-902©(3)) insert “and concurrent college courses for weighted credit.”

²The Advanced Placement Rules (3.06) stipulate that students must take the applicable AP exam to receive weighted credit for the course. Because the state now pays the total cost of the AP exams and the student’s score on the exam does not affect the student’s grade for the course, students can reasonably be expected to take the test. By standardizing the timing of awarding weighted credit across Arkansas, all students will be on a level playing field regarding their GPA for college applications.

Date Adopted: June 29, 2010
Last Revised: January 17, 2012

5.22—CONCURRENT CREDIT

Students who have successfully completed the eighth grade, successfully enrolled and completed a course or courses offered by an institution of higher education shall be entitled to receive appropriate academic credit at the institution of higher learning and the public school. Such credits are applicable to graduation requirements (Arkansas Law 6-18-223).

1. Credits earned by CLEP examination shall not count as high school credit.
2. Three semester hours of college credit shall be the equivalent of one unit of high school credit.
3. College summer school credit receives concurrent high school credit.
4. Concurrent coursework earned in another school district which meets the criteria of Arkansas Law and the Department of Education regulations will be accepted when the student enrolls in the Nettleton School District.
5. Enrollment in the Arkansas State University concurrent program, "Early Start," requires a specific high school grade point average and ACT score. These concurrent courses taught at Nettleton High School include College Algebra, Word Processing, Microcomputer Applications and two-semester sequence courses in World Civilization and Freshman English.
6. The student is responsible for all cost to receive the college credit portion of concurrent classes.
7. A maximum of $\frac{1}{2}$ credit from the Valley View Adult Education Center High School Recovery Program may be applied towards graduation requirements for any student whose class has graduated. All requirements for entrance and successful completion of this $\frac{1}{2}$ credit will be under the guidelines established by the Valley View Adult Education Center.
8. A maximum of two (2) credits in approved correspondence courses may be applied toward graduation requirements.

A student who takes a three-semester hour remedial/developmental education course, as permitted by the ADE Rules Governing concurrent College and High School Credit, shall be the equivalent of one-half unit of credit for a high school career focus elective. The remedial/developmental education course cannot be used to meet the core subject area/unit requirements in English and mathematics.

Participation in the concurrent high school and college credit program must be documented by a written agreement between:

- The District's student, and his or her parent(s) or guardian(s) if the public school student is under the age of eighteen (18);
- The District; and
- The publically supported community college, technical college, four-year college or university, or private institution the student attends to take the concurrent credit course.

Date Adopted: June 29, 2010

Last Revised: June 18, 2013

5.23—EQUIVALENCE BETWEEN SCHOOLS

The Nettleton School District is committed to providing a quality education for all students in each of the district's schools. The equitable distribution of district resources is one means the district shall use to ensure all of its students receive a quality education. The Board directs that services in Title I schools, when taken as a whole, are substantially comparable to services in schools that are not receiving Title I funds. Curriculum materials, instructional supplies, and the percentages of highly qualified personnel shall be equivalent between all schools in the district when compared on a grade-span by grade-span basis, school-by-school basis. Specifically, the goal of the district is to have its students given an equitable opportunity to learn regardless of the school they attend within the district.

The Board understands that the equivalence between schools shall not be measured by such things as

1. Changes in enrollment after the start of the school year;
2. Varying costs associated with providing services to children with disabilities,
3. Unexpected changes in personnel assignments occurring after the beginning of the school year;
4. Expenditures on language instruction education programs and;
5. Other expenditures from supplemental State or local funds consistent with the intent of Title I.

5.24—STUDENT PARTICIPATION IN SURVEYS

Section One: No student shall be required to submit to a survey, analysis, or evaluation which is administered or distributed by a school, and is funded in whole or in part by any program administered by the U.S. Department of Education without the prior written consent of the parent/guardian that reveals information concerning the following:

1. political affiliations;
2. mental and psychological problems potentially embarrassing to the student or his family;
3. sex behavior and attitudes;
4. illegal, anti-social, self-incriminating, and demeaning behavior;
5. critical appraisals of other individuals with whom respondents have close family relationships;
6. legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;
7. religious practices, affiliations, or beliefs of the student or student's parent; or
8. income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

Section Two: No surveys shall be administered without the prior approval of the school principal. Any survey created by a third party, or funded, in whole or in part, as part of any US Department of Education administered program, containing one or more of the eight categories listed above shall be available to be inspected by a student's parent/guardian before the survey is administered or distributed by a school to a student. Parents/guardians shall have the right to deny permission for their child to participate in the taking of the survey. The school shall not penalize students whose parents/guardians exercise this option. The school shall take reasonable precautions to protect students' privacy during their participation in the administration of any survey, analysis, or evaluation containing one or more of the eight categories listed above.

Section Three: Parents or guardians wishing to inspect a survey, analysis, or evaluation shall be able to do so in the administrative office of the administering school where the surveys shall be available for inspection for a period of ten (10)* days (regular school days when school is in session) after the notice of intent to administer the survey is sent. Included in the notice shall be information regarding how the survey or questionnaire will be administered; how it will be utilized; and the persons or entities that will have access to the results of the completed survey or questionnaire. Parents may refuse to allow their student to participate before or after reviewing the survey or questionnaire.

The requirements of sections one, two, and three of this policy do not apply to a survey administered to a student in accordance with the Individuals with Disabilities Education Act (IDEA).

Section Four: Prior written parental permission is required before any survey or questionnaire (not including tests mandated by state or Federal law or regulation and standardized scholastic achievement tests) is administered to a student the responses to which are to be provided to a person or entity other than another public school, school district, or any branch of the Federal Government and which requests or requires a student to provide any of the eight (8) categories of information listed above and/or the following;

1. A student's name;
2. The name of the student's parent or member of the student's family;
3. The address, telephone number, or email address of a student or a member of a student's family;
4. A personal identification number, such as a social security number, driver's license number, or student identification number of a student or a member of the student's family;
5. Any information, the disclosure of which is regulated, or prohibited by any other state or federal law or regulation.

The rights provided to parents under this policy transfer to the student when he/she turns 18 years old.

5.25—MARKETING OF PERSONAL INFORMATION

The Nettleton School District shall not collect, disclose, or use personal information for the purpose of marketing or for selling that information or to otherwise provide that information to others for that purpose.

Personal information is defined, **for the purposes of this policy only**, as individually identifiable information including

1. a student or parent's first and last name,
2. a home or other physical address (including street name and the name of the city or town),
3. telephone number, and
4. social security identification number.

The district may collect, disclose, or use personal information that is collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions such as the following:

1. College or other postsecondary education recruitment, or military recruitment;
2. Book clubs, magazines, and programs providing access to low cost literary products;
3. Curriculum and instructional materials used by elementary schools and secondary schools;
4. Tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students (or to generate other statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments;
5. The sale by students of products or services to raise funds for school related or education related activities; and
6. Student recognition programs.

5.26—ALTERNATIVE LEARNING ENVIRONMENTS

The District shall provide an eligible alternative learning environment (ALE) for each eligible ALE student enrolled in a District school. The ALE shall be part of an intervention program designed to provide guidance, counseling, and academic support to students who are experiencing emotional, social, or academic problems. Placement of a student in an ALE shall not be punitive in nature.

The superintendent or designee shall appoint an Alternative Education Placement Team which shall have the responsibility of determining student placement in the ALE. A student may be enrolled in an ALE only on the referral of the Alternative Education Placement Team.

The team is to be comprised of the following:

- a school counselor from the referring school;
- the ALE administrator and/or ALE teacher;
- the building principal or assistant principal from the referring school;
- a parent or legal guardian (if they choose to participate);
 - The District shall document its efforts to contact the student's parent or guardian to schedule a meeting or a phone call for a placement meeting at the parent or guardian's convenience, and maintain such documentation in the student's Student Action Plan (SAP).
- LEA special education/504 representative (if applicable);
- at least one (1) of the student's regular classroom teacher(s); and
- if the District so chooses, the student.

Students who are placed in the ALE shall exhibit at least two of the following characteristics a through l:

- a) Disruptive behavior;
- b) Dropping out from school;
- c) Personal or family problems or situations;
- d) Recurring absenteeism;

For the purposes of the ALE, personal or family problems or situations are conditions that negatively affect the student's academic and social progress. These may include, but are not limited to:

- e) Ongoing, persistent lack of attaining proficiency levels in literacy and mathematics
- f) Abuse: physical, mental, or sexual;
- g) Frequent relocation of residency;
- h) Homelessness;
- i) Inadequate emotional support;
- j) Mental/physical health problems;
- k) Pregnancy; or
- l) Single parenting.

The district's ALE program shall follow class size, staffing, curriculum, and expenditure requirements identified in the ADE Rules.

5.29—WELLNESS POLICY

The health and physical well-being of our students directly affects their ability to learn. Childhood obesity increases the incidence of adult diseases occurring in children and adolescents such as heart disease, high blood pressure and diabetes. The increased risk carries forward into their adulthood. Research indicates that a healthy diet and regular physical activity can help prevent obesity and the diseases resulting from it. It is understood that the eating habits and exercise patterns of students cannot be magically changed overnight, but at the same time, the Board of Directors believes it is necessary to strive to create a culture in our schools that consistently promotes good nutrition and physical activity.

The problem of obesity and inactivity is a public health issue. The Board of Directors is keenly aware that it has taken years for this problem to reach its present level and will similarly take years to correct. The responsibility for addressing the problem lies not only with the schools and the Arkansas Department of Education, but with the community and its residents, organizations and agencies. Therefore, the District shall enlist the support of the larger community to find solutions which improve the health and physical activity of our students.

Goals

In its efforts to improve the school nutrition environment, promote student health, and reduce childhood obesity, the District will adhere to the ADE Rules Governing Nutrition and Physical Activity Standards and Body Mass Index for Age Assessment Protocols. To promote nutrition, physical activity, and other school based activities that will improve student wellness, the District has established the following goals:

1. Appoint a district school health coordinator or designated district official who shall be responsible for ensuring that each school fulfills the requirements of this policy;
2. Implement a grade appropriate nutrition education program that will develop an awareness of and appreciation for nutrition and physical activity throughout the curriculum;
3. Enforce existing physical education requirements and engage students in healthy levels of vigorous physical activity;
4. Strive to improve the quality of physical education curricula and increase the training of physical education teachers;
5. Follow the Arkansas Physical Education and Health Education Frameworks in grades K-12;
6. Not use food or beverages as rewards for academic, classroom, or sports performances;
7. Ensure that drinking water is available without charge to all students;
8. Establish class schedules, and bus routes that don't directly or indirectly restrict meal access;
9. Provide students with ample time to eat their meals in pleasant cafeteria and dining areas;
10. Establish no more than nine (9) school wide events which permit exceptions to the food and beverage limitations established by Rule. The schedule of the events shall be by school, approved by the principal, and shall be part of the annual school calendar;
11. Abide by the current allowable food and beverage portion standards;
12. Meet or exceed the more stringent of Arkansas' or the U.S. Department of Agriculture's Nutrition Standards for reimbursable meals and a la' carte foods served in the cafeteria;
13. Restrict access to vended foods, competitive foods, and foods of minimal nutritional value (FMNV) as required by law and Rule;
14. Conform new and/or renewed vending contracts to the content restrictions contained in the Rules and reduce district dependence on profits from the sale of FMNV.
15. Provide professional development to all district staff on the topics of nutrition and/or physical activity;

16. Utilize the School Health Index available from the Center for Disease Control (CDC) to assess how well the district is doing at implementing this wellness policy and at promoting a healthy environment for its students;

Advisory Committee

To enhance the district's efforts to improve the health of our students, a School Nutrition and Physical Activity Advisory Committee (SNPAAC) shall be formed. It shall be structured in a way that ensures age-appropriate recommendations are made which correlate to our district's grade configurations. The SNPAAC shall have the powers and responsibilities delegated to it by statute and Rule and are incorporated into this policy by reference. The overarching goal of the committee shall be to promote student wellness by monitoring how well the district is doing at implementing this policy. The SNPAAC shall use modules 1, 2, 3, 4, and 8 of the CDC's School Health Index as a basis for assessing each school's progress toward meeting the requirements of this policy. The results of the annual assessment shall be included in each school's ACSIP, provided to each school's principal, and reported to the board. Goals and objectives for nutrition and physical activity shall also be included in the ACSIP.

Members of the District's Board of Directors, school administrators, school nutrition personnel, teacher organizations, parents, students, professional groups (such as nurses), and community members shall be included in the development, implementation, and periodic review of the District's wellness policy to the extent interested persons from each group desire to be included.

The SNPAAC shall provide recommendations to the school district concerning menus and other foods sold in the school cafeteria. Such recommendations shall be based, at least in part, on the information the Committee receives from the District on the requirements and standards of the National School Lunch Program and information and from menus or the National School Lunch Program and other food sold in the school cafeteria on a quarterly basis.

The District will work with the SNPAAC to:

- A. Encourage participation in extracurricular programs that support physical activity, such as walk-to-school programs, biking clubs, after-school walking etc.;
- B. Encourage the implementation of developmentally appropriate physical activity in after-school childcare programs for participating children;
- C. Promote the reduction of time youth spend engaged in sedentary activities such as watching television and playing video games; and
- D. Encourage the development of and participation in family-oriented community-based physical activity programs.

The District shall periodically assess, with input from the SNPACC, the District and individual schools' status regarding implementing this policy. The assessment shall be based, at least in part, on:

- The extent to which District schools are in compliance with this policy;
- The extent to which this policy compares to other model local school wellness policies; and
- A description of the progress made in attaining the goals of this policy.

The assessment results along with the content of this policy shall be periodically reported to the public, including parents, students, and other members of the community.
