After school program.
i neven ben bullied
I do not like bulling. but i have got bullied before.
say stop and think
More teachers at the playground.
I think that they have done good with bullying. They have sent to the priable. The teachers talk to them outside the classroom. I think the school has done a good job with bullying.
Put more teachers outside.
rr
talk.
Tell the teacher.
I’ve been verbal bullied before
A non-bullying program.

More security officers. More surveillance. Less judging from officials based on their opinion of you just because of your appearance or the people you are friends with.

I think that the counselors should stop thinking that they know everything and actually ask people what they think about things instead of thinking that the first person who comes to them is telling the truth because they are probably not.

There is not really anything else we can do about it.

I would like the teacher

not
don’t know
to keep a bully in check ask them how their day was

I think that the bullies should get one chance, and I think that they should get ISS for a school week.

? No recess for a month.

I think they should get in ISS for bulling because it hurts a lot of feelings.

Let everyone get together and get to know each other better.

The school district can do more activities to help people get used to each other or there can be a time where some kids from different classrooms have different times to meet up at.

I think a way to prevent bullying is by having a group of people that have been bullied so that they don’t become bullies themselves.

To have program for it. Tell the teacher and the principals.

Look for as many kids that you think might seen or is being bullied and ask they have been bullied.

We could talk about bullying.

I don’t know it is their choice.

By telling a kid to stop.

to say your sorry

I think the school should report them to the principal.

I have not been bullied.

Students need to stop bulling at school that can make kids cry.

More cameras on the playground.

Everyone

I think they could paddle them.

To prevent bullying i thing that kids should be put in detention and go to ISS when they bully other people and they should get a paddaling if their parents give them permission to. I think that if we start getting paddalings that it might make the bullying stop.

It is not good.

I don’t know.

Bully program
we can do stop bulling programs.
check on students to see what is wrong with them if they look upset.

the school is doing everything they can to prevent bulling of any kind.
NO
Watch kids more
Students who have been bullied should all come together with the school to prevent and start
some kind of organization for people who have been bullied.
reward more for standing up to people and doing the right thing in a situation in which someone
is getting bullied and there are no teachers around, and raise more awareness to bullying and to
how it affects people
ISS and OSS at the SAME time
get help for the teacher
i do not now.
Stricter rules
our school should have assemblies on bullying to prevent it
