Intentional Teams

Presented by: Tammy McKee & Debbie Payne, Learning Keys Partners, Inc.

Keys to ensure teacher teams are focused, strategic, and spend effort on the right things in the right way.

Do you have Intentional Teams that utilize processes and guided questions to focus teacher groups on critical components that will impact ALL student learning and teacher effectiveness? Do you have protocols and procedures provided to guide teachers to reflect on specific areas and determine effectiveness in order to make changes throughout the year as a preventative approach? Come and learn about: Developing a **four-meeting cycle** focused on: Data Check, Curriculum Check, Lesson Design and Delivery Check, Lesson Reflection. Using the **Learning Support Team** as a **Response to Intervention** framework that promotes a well-integrated system connecting general education, interventions, and areas such as **dyslexia**, Section 504, Gifted and Talented and Special Education. Identifying and using **Essential Standards** as priority standards as a carefully selected subset of the total list of the grade-specific and course-specific standards within each content area that students must know and be able to do by the end of each school year in order to be prepared to enter the next grade level or course. Along with using these Essential Standards to provide "time and support" for students who haven't mastered them and extension for those who already have.
