

FBI SOCIAL MEDIA PRESENTATION

The Blanco Independent School District continues to make the safety and security of our students and staff a priority. Social media has become a common place for inappropriate use and potential dangers. As a follow up to a recent presentation made by the Federal Bureau of Investigations in Johnson City, Blanco ISD will host a session related to the misuse of the social networking app, Snapchat. The FBI will present information on the “predator” aspect of social media, as well as the potential ramifications for the “victim”. The presenter will share information regarding real investigations the FBI has conducted where children have been involved and exploited. Parents will have the opportunity to ask questions.

It should be noted that the presentation is meant for adult to young adult viewers --- young viewers should not attend.

Please join us for this presentation:
