Parental Consent for GT Testing

Dear Parents,

_____ has been nominated as a candidate for the Gifted and Talented program. To make an accurate evaluation of his/her present educational program, it will be necessary for a case study to be completed and additional tests may need to be administered. Parental consent must be secured before any further action can be taken. Please sign this letter and return it to school tomorrow if you would like your child to be evaluated for the GT program.

If there are any questions concerning this matter, you may contact me at 870-352-2126. Your cooperation is greatly appreciated and is a vital link in providing the best educational program plan for your child.

All information will be kept confidential and will only be released to authorized personnel of the school district for educational planning and programming. As a parent, you may request to inspect the data gathered concerning your child. Since the GT program is non-compulsory, your child will not be placed in the program without your written consent.

Sincerely,

Penny Brent
GT Coordinator

I have read and understand the purpose for which my consent is being requested.
