CMS

- Jan 15 - No School - Staff Development

Over the winter break the construction started in full force at the CIC...both on the inside and outside. Trees have been removed and electrical lines have been relocated outside. On the inside, the 6th grade classrooms are in the process of being remodeled.

One big change for students who walk home after school - the sidewalk west of the CIC and CMS will be removed during the week of January 15th.

If you student typically walks this route before or after school, he or she will need to think about another route. We will allow students to travel back and forth on the east side of the buildings if that works best for them.
