

Bloodborne Pathogens Classroom Preparation

BLR's Safety Training Presentations

OSHA's Bloodborne Pathogens Requirements

- Have you read the requirements of the Bloodborne Pathogen Standard (www.osha.gov) located in 29 CFR 1910.1030?
- Does your company have a written Exposure Control Program?
- Do you have employees who are potentially exposed to bloodborne pathogens as a routine part of their duties?
- Are hepatitis B vaccinations offered to those employees covered by the third question above?

Preparing Handouts and Training Props

- Print out and make copies of the Bloodborne Pathogens Quiz.
- Bring the written exposure control plan to class if one is available.
- Bring examples of labels and signs warning of biohazards to show them to the class.
- Bring examples of personal protective equipment to be used to provide adequate bloodborne pathogen protection.

Supplemental Information

- BLR's *Bloodborne Pathogens* booklet, #A200-194
- BLR's *Universal Precautions* booklet, #A200-103
- OSHA pamphlet *Occupational Exposure to Bloodborne Pathogens*, OSHA #3127
- OSHA pamphlet *Occupational Exposure to Bloodborne Pathogens and Long-Term Care Workers*, OSHA #3131
