County Profile Information

Anderson County, Kansas

According to figures provided in the Kansas Statistical Abstract, the population of Anderson county was approximately 7883 in 2014. This represents a -2.7% change or net migration since the 2010 United States Census. With a total number of 579.6 square miles in the county, the population density for the county is 13.9 people per square mile. Approximately 0.3 of the square miles within the county is considered to be urban while 41.18 percent of the population lives in urban areas. This places the county in the KDHE population peer group of a Rural area. According to projections reported in the Kansas Statistical Abstract, the percentage change in total population through the year 2040 is estimated at -10.55 for the county.

County Health Rankings:

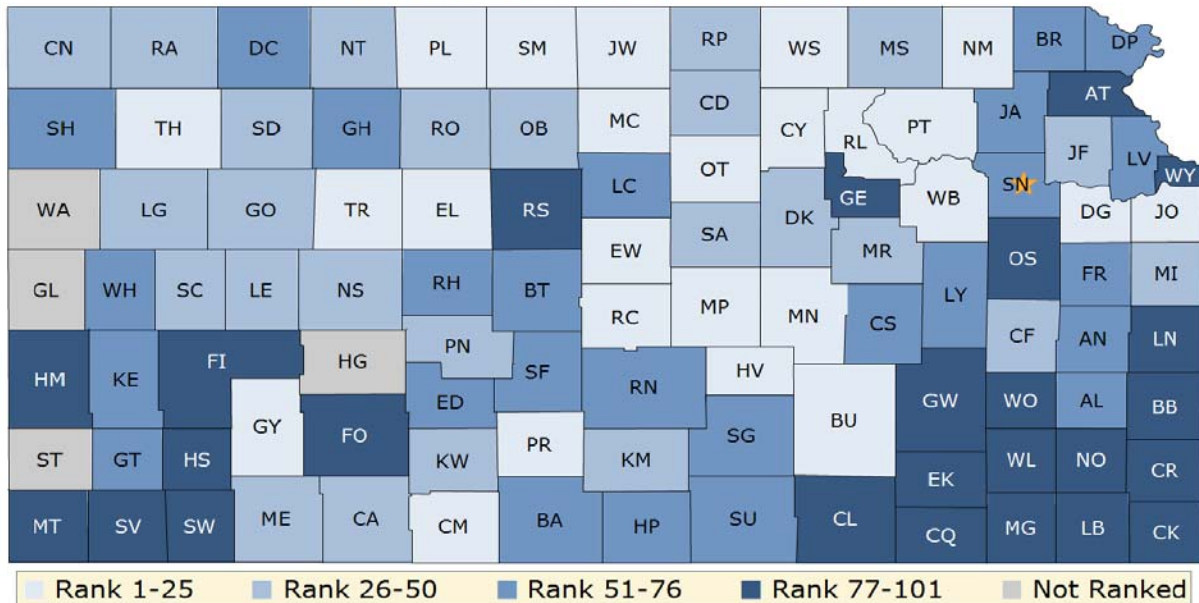

The County Health Rankings (provided by the Robert Wood Johnson Foundation) measure the health of nearly all counties in the nation and rank them within states. The Rankings are compiled using county-level measures from a variety of national and state data sources with 1 being the best.

The overall rankings in health factors represent what influences the health of a county. They are an estimate of the future health of counties as compared to other counties within a state. The ranks are based on four types of measures: health behaviors, clinical care, social and economic, and physical environment factors.

Details regarding this data can be found at: <http://www.countyhealthrankings.org/#app/>

GRADUATION RATES BY COHORT

Graduation data prior to 2008-2009 used the National Center for Education Statistics (NCES) formula. 2008-2009 graduation data used the No Child Left Behind (NCLB) formula. 2009-2010 graduation data and beyond will use the Four-Year Adjusted Cohort formulas. As a result, it is imperative that no comparisons be made between graduation data from 2009 and earlier and graduation data from 2010 and beyond.

4-YEAR COHORT GRADUATION RATES (ALL STUDENTS):
