

RE: REQUIRED SCHOOL HEALTH SCREENINGS

Dear Parents of Students in USD 365 Schools, Pre-K through 12th Grades:

In compliance with Kansas Statutes for School Health Programs the following health screenings will be conducted annually on the following schedule:

Hearing Screening: Pre-K, Kdg, 1st, 2nd, 3rd, 5th, 7th, 9th, 11th and any student new to the district and by parent or teacher request.

Vision Screening: Pre-K, Kdg, 1st, 2nd, 3rd, 5th, 7th, 9th, 11th and any student new to the district and by parent or teacher request.

Dental Screening: All students grades Kdg-12th.

Screenings are conducted to determine if your child has a health risk that needs medical attention, and/or might affect his/her classroom work.

You will be provided a follow-up letter if there is a need for further evaluation by a medical provider for vision and/or hearing concerns. Dental screening results will be provided to each student screened. These screenings do not qualify as an examination and parents are encouraged to make sure your child has annual medical check ups as well as bi-annual dental check ups.

If you have any questions regarding these free services, or if you wish your child excluded from any part of the Health screenings, please do not hesitate to contact me!

Sincerely,

Tabitha Clark, RN

If you wish to **DECLINE** any of the following school health screenings listed below please check the appropriate box, sign and date this form and return to the school nurse upon school enrollment.

I **DO NOT** give permission for my child to participate in the following school health screenings. I understand it is my responsibility to provide the school with documentation of the results of the waived screenings from an appropriate health professional **as soon as available** but no later than **May 15th** of the current enrollment year.
