Greetings from Kansas Treasurer

Jake LaTurner:

My wife, Suzanne, and I opened Learning Quest accounts for our kids because we want to help them achieve the education of their dreams. Saving early is an important part of making those dreams a reality. Opening a Learning Quest account is a great way to tell the students in your life that you believe in their potential and that you are taking steps to invest in their future. Starting early and saving often will help your students be prepared for the education that will launch them into a great career. Start saving today and tell your student that you expect great things from them.
