

How to Get Test Scores from EdPerformance

Go to edperformance.com

Click on Staff Login

Type in your Site ID then log in with your User ID and password: 4testing.

There are two ways to search:

First One

1. Type the student's last name in the box on the upper right side of the page and press Go or enter on your keyboard.
2. You can narrow your search by selecting a grade level on the left.
3. Once you have identified the student, click on his/her name.
4. On the page that opens, click on the Performance Testing Tab.
5. Click on whatever Test Scores you need from the list on the left-it will only show you one score at a time.

Second One:

1. Click on the Site Admin tab at the top of the page.
2. Click on Search Students on the left side of the page.
3. Type the student's last name where it says Keyword and click search on the right hand side of the page or press enter on your keyboard.
4. Select the student you need by clicking on their name.
5. On the page that opens, click on the Performance Testing Tab.
6. Click on whatever Test Scores you need from the list on the left-it will only show you one score at a time.
