

Camden Fairview School District has revised the Instructional Schedule for students who have chosen On-Site Instruction. The new schedule will go into effect Friday, October 16, 2020.

Students will be on-site with their classroom teacher for instruction Monday through Thursday of each week.

Students will engage in instruction remotely, from home, using their school issued laptops/Chromebooks and Google Classroom on Friday of each week. Please contact your building administrator if you are in need of internet connectivity.

Buses will not run on Fridays but if you would like for your child to attend school, you will need to provide transportation. Students who choose to come to school on Friday will continue to receive instruction virtually through Google Classroom assisted by our paraprofessionals to ensure students stay academically engaged. All students that go to SAU Tech on Fridays can come to the High school and ride a bus to their campus and back to the High School. Breakfast and lunch will be served.

Teachers and administrators will be onsite each Friday using this day to plan/develop lessons, upload digital content, and work collaboratively on PLC process. This will provide the best instruction for our Onsite and Remote learners. Also our custodial team use this time to disinfect and deep clean the buildings.
