INTERROGATIONS AND SEARCHES

FNF  
(LOCAL)

INTERROGATIONS  
BY SCHOOL  
OFFICIALS

Administrators, teachers, and other professional personnel may question a student regarding the student's own conduct or the conduct of other students. In the context of school discipline, students have no claim to the right not to incriminate themselves.

BY POLICE OR  
OTHER  
AUTHORITIES

For provisions pertaining to student questioning by law enforcement officials or other lawful authorities, see GRA(LOCAL).

LOCKERS AND  
VEHICLES

Students have full responsibility for the security of their lockers and for vehicles parked on school property. It is the student's responsibility to ensure that lockers and vehicles are locked and that the keys and combinations are not given to others. Students shall not place, keep, or maintain any article or material that is forbidden by District policy in lockers or in vehicles parked on school property.

School officials may search lockers or vehicles parked on school property if there is reasonable cause to believe that they contain articles or materials prohibited by District policy. Students shall be responsible for any prohibited items found in their lockers or in vehicles parked on school property.

If a vehicle subject to search is locked, the student shall be asked to unlock the vehicle. If the student refuses, the District shall contact the student's parents. If the parents also refuse to permit a search of the vehicle, the District may turn the matter over to local law enforcement officials.

USE OF TRAINED  
DOGS

The District shall use specially trained nonaggressive dogs to sniff out and alert officials to the current presence of concealed prohibited items, illicit substances defined in FNCF(LEGAL), and alcohol. This program is implemented in response to drug- and alcohol-related problems in District schools, with the objective of maintaining a safe school environment conducive to education.

Such visits to schools shall be unannounced. The dogs shall be used to sniff vacant classrooms, vacant common areas, the areas around student lockers, and the areas around vehicles parked on school property. The dogs shall not be used with students. If a dog alerts to a locker, a vehicle, or an item in a classroom, it may be searched by school officials. Searches of vehicles shall be conducted as described above.

NOTICE

At the beginning of the school year, the District shall inform students of the District's policy on searches, as outlined above, and shall specifically notify students that:

1. Lockers may be sniffed by trained dogs at any time.

2. Vehicles parked on school property may be sniffed by trained dogs at any time.
3. Classrooms and other common areas may be sniffed by trained dogs at any time when students are not present.
4. If contraband of any kind is found, the possessing student shall be subject to appropriate disciplinary action in accordance with the Student Code of Conduct.

PARENT  
NOTIFICATION

The student's parent or guardian shall be notified if any prohibited articles or materials are found in a student's locker, in a student's vehicle parked on school property, or on the student's person, as a result of a search conducted in accordance with this policy.

MANDATORY DRUG-  
TESTING PROGRAM

The District requires drug testing of any student in grades 7–12 who chooses to participate in any school-sponsored extracurricular activities.

SCOPE

A student participating in these activities shall be tested randomly throughout the school year for the presence of illegal drugs and alcohol.

PURPOSE

The purpose of the drug-testing program is to deter student use of illegal and performance-enhancing drugs or alcohol.

DISTRIBUTION OF  
POLICY

The District shall provide each parent and student a copy of the drug-testing policy and consent form prior to the student's participation in an affected activity.

ORIENTATION  
MEETINGS

The District shall conduct meetings with parents and interested student participants prior to the beginning of the fall practice period.

District employees shall explain the drug-testing program, review the policy and consent form, and provide an educational presentation on the harmful effects of drug and alcohol abuse.

Student attendance at the orientation meeting is mandatory; however, parent attendance is not mandatory.

CONSENT

Before a student is eligible to participate in extracurricular activities, the student shall be required annually to sign a consent form agreeing to be subject to the rules and procedures of the drug-testing program. If the student is under the age of 18, the student's parent or guardian shall also sign a consent form. If appropriate consent is not given, the student shall not be allowed to participate in extracurricular activities.

USE OF RESULTS

Drug test results shall be used only to determine eligibility for participation in extracurricular activities. Positive drug test results shall

not be used to impose disciplinary sanctions or academic penalties.

Nevertheless, nothing in this policy shall limit or affect the application of state law, local policy, or the Student Code of Conduct. A student who commits a disciplinary offense shall be subject to consequences in accordance with the Student Code of Conduct.

CONFIDENTIALITY

Drug test results shall be confidential and shall be disclosed only to the student, the student's parents, and designated District officials who need the information in order to administer the drug-testing program. Drug test results shall not be maintained with a student's academic record. Results shall not be otherwise disclosed except as required by law.

TESTING  
LABORATORY

The Board shall contract with a certified drug-testing laboratory to conduct testing of students' urine or hair samples.

Testing laboratories shall not release statistics regarding the rate of positive drug tests to any person or organization without consent of the District.

SUBSTANCES FOR  
WHICH TESTS ARE  
CONDUCTED

The drug-testing laboratory shall test for the presence of: alcohol, anabolic steroids, marijuana, cocaine, methaqualone, benzodiazepines, phencyclidine (PCP), methadone, barbiturates, amphetamines, opiates, synthetic drugs, and metabolites of any of these substances.

COLLECTION  
PROCEDURES

Personnel from the drug-testing laboratory shall collect urine samples under conditions that are no more intrusive than the conditions experienced in a public restroom. When selected for testing, a student shall be escorted to the school's testing site by a District employee and shall provide a urine sample within a closed restroom stall. The student shall remain under District employee supervision and shall have no contact with other students until the student provides a sample. Alternatively, a student who is unable to provide a urine sample within the time allotted shall submit to a hair follicle test, conducted in accordance with administrative regulations. A District employee of the same gender as the student shall be present when any urine or hair samples are collected.

RANDOM TESTING

Random tests shall be conducted on as many as ten dates throughout the school year.

No less than five percent of the students participating in the program shall be randomly selected for each random test date. The drug-testing laboratory shall use a random selection method to identify students chosen for random testing. Students shall not receive prior notice of the testing date or time.
