

Malakoff I.S.D. Title I Supplement, Not Supplant Plan and Procedures

The district's Supplement, Not Supplant Plan and Procedures describe how the district ensures that Title I funds are used only to supplement, and not supplant, state and local funds that would, in the absence of Title I funds, be spent on Title I students.

The procedures must include a description of the means by which the policy is disseminated to personnel involved with Title I.

Title I funds may not take the place of—supplant—public education services that are to be provided to all students. The plans and procedures below will assist the district in demonstrating that it uses Title I funds only to supplement, and to the extent practical, increase the level of funds that would, in the absence of Title I funds, be made available from non-Federal sources for the education of children participating in Title I programs.

Schoolwide Program Campuses	
	Malakoff High School (9-12)
	Malakoff Middle School (6-8)
	Malakoff Elementary (EE-5)
	Tool Elementary (PK-5)

Schoolwide Programs

The district and/or schools will demonstrate that Title I funds supplement those funds that are required to be provided to the schoolwide program schools. Evidence includes: the school budget; the district budget; and back-up documentation demonstrating that the schools are receiving proper amount of funds for free public education, including funds for services for LEP and Special Education students.

Procedure for Dissemination

The Title I Director will disseminate this written policy and procedure to all building administrators in Title I buildings in the district and on the district website. Following such dissemination, the Title I Director will meet with school administrators and all Title I-involved staff to ensure clear understanding of the concept of Supplement, Not Supplant and the procedures enacted to follow this policy.

Malakoff School Independent District

The MISD may not use Title I, Part A funds for activities that it would have carried out in the absence of Title I, Part A funds. In general, to “supplement” means that Title I funds are used to implement programs that would not be available if it were not for these federal funds.

The MISD Title I is a school-wide program. Since we are operating a school-wide program we must use funds available under Title I and any other federal programs that are combined to support its school-wide program to supplement the total amount of funds that would, in the absence of these federal funds, be made available from non-federal sources for Malakoff High School, Malakoff Middle School, Malakoff Elementary School and Tool Elementary School including funds needed to provide services that are required by law for children with disabilities and children with limited English proficiency.

Supplement, Not Supplant Means Tests:

1. Is the program or activity that the district wants to fund required under state, local, or another federal law? If it is, then it is supplanting unless otherwise noted in the state, local, or federal law.
2. Were state or local funds used in the past to pay for this program or activity? If they were, it is supplanting.
3. Are the same programs or activities being implemented in other school that do not receive Title I funds and are these programs and activities being paid for with state or local funds? If yes, then this is supplanting.

The school district will review this policy each year during opening day orientation, hand out to parents at the Annual Title I Meeting and post on the district's website: www.malakoffisd.org
