The Waiver to serve SSO (free meals to all students) for the school year 2021-2022 will expire June 30th 2022. So all meals served ( breakfast and lunch) will go back to families having to fill out an application at the beginning of the school year, unless your students are sent a letter about being on the Direct Certification List. Letters for this list and applications per household will be sent around the first of August 2022. Please be sure to return those in a timely manner to prevent charges adding up.
