Rain may not seem scary for drivers, but it can be. Roads become very dangerous when it first starts raining. Rain mixes with the oil on roads, causing slippery surfaces that can be very hazardous to drive on. Safe drivers slow down when it starts to rain so they can keep control (kən trōl') of their cars.

7. What mixes with rain to make roads slick?

 dirt oil concrete

8. How can drivers keep control in rain?

9. People must drive carefully in rain.

 yes no
