# The Long, Slow Life of a Tortoise

Name: \_\_\_\_\_

Some animals live a very long time. Others do not. This graph shows how long some animals can live.

**Part 1 Directions:** Read each statement. If it is true, write a **T** on the line. If it is false, write an **F**. Use the graph to help you.

- \_\_\_\_\_ 1. Elephants can live for 100 years.
- \_\_\_\_\_ 2. A rabbit can live for about 10 years.
- \_\_\_\_\_ 3. Flies can't even live for one year.
- \_\_\_\_\_ 4. No animal can live as long as a cat can.

**Part 2 Directions:** Put these animals in age order from longest to shortest. Write **1st** in the box above the one that lives the longest. Write **2nd** in the box above the one that lives the second longest. Write **3rd** in the box above the one that lives the shortest amount of time.
