**I understand this is a School Health Law.** In accordance with Ark. Code Ann. § 6-18-1005, health services shall include but not be limited to: (1) Students with special health care needs, including the chronically ill, medically fragile, technology dependent, and students with other health impairments shall have an Individualized Healthcare Plan.

Your doctor should have a **Individual Health Plan** on hand for any medication needed and signed in to be given during school hours--- It will be placed in the students chart with the school nurse .

These forms are also provided under the **Health tab** on the School Information website ----

**lcscougars.org** ----to take to the Physician so that he/she can fill it in. This is a very important step for the school nurse to have to provide care from your doctor -- for the student having medication signed in to be given during school hours.

**The Individual Health Plan form must be signed by the Physician, Parent and School Nurse. This form is to be updated every year when medication to be given during school hours is signed in for your child.**
