RE: Distance Learning Continues

Distance learning will continue until at least May 4th. The teachers and administrators would like to thank you all for the support and positive response we have gotten. We will all continue to grow and learn during this time. We encourage students and parents alike to join the scheduled Google Meets face to face interaction to ask questions or just to say hi. White Deer teachers and administrators are committed to making this the best it can be under the circumstances. Stay home and stay safe.
