Greetings parents/guardians and students,

We will be delaying the start date for students to August 20, 2020. This decision was made in order to better prepare for the start of a new school year in a very different way. The full school staff will still report on August 10th. Our preparations for a safe and healthy in-person and virtual instruction are under way. We are utilizing current recommended guidelines from the State Health Department, State Department of Education, and local health professionals and providers.

We are anticipating the delivery of necessary PPE and technology very soon. We are expecting the delivery of state provided PPE prior to the 20th.

Our staff is involved in technology training this week and next that will apply to our in person and virtual school offerings. This training is imperative to our successful delivery of instruction in our current environment.

In these unprecedented times we cannot predict what the future will bring. Our staff is actively preparing for possible scenarios that could exist. We too, like you, are doing this for the first time. As situations and conditions change we will remain flexible in our approach. We look forward to seeing our students who are coming to the buildings and will miss those who choose to stay home. The choices made by families and students are equally respected. These are not normal times.

As information changes and decisions need to be made we will be keeping you informed via text, web pages, and social media outlets. Information concerning Meet the Teacher Night should come very soon. The safety and health of our students and staff will guide the decisions made. Please check frequently for updates and required changes. Any major change will be prefaced with an alert text from the district. Those text lists are scheduled to update tonight. The phone numbers are pulled from enrollment information. If there is an additional number that you would like to add please email that to your site principal. We can be a support to each other in this journey past COVID. I am hoping for a short trip.

Sincerely,

Tod Harrison
