

Digital Graphic Design

This is the first year that we are offering this class at Bethel. I'm very excited to teach it! The instructional part of the class will be learning graphic design through programs like GIMP (Graphic Image Manipulation Program). The other portion of the class will be learning web design by updating and maintaining Bethel's website. This will offer a great chance for hands-on learning.

Grading

I use a simple point system for grading. Daily work is usually worth 10 points, and projects and exams are usually worth 50-100 points. The best way to keep your grade up is to turn in ALL your work. The daily assignments add up!

Most of the work will be assigned through Google Classroom. As soon as I grade an assignment, you will be able to see what your score was.

Classroom Expectations

Be kind. Be patient. Be present. Be mindful. Be happy.

Required Materials

All the work done in class will be on the computers. Students do not need to bring any extra supplies to class.

Make-up Work / Late Work

Generally, one day is given for each day absent; however, I will be more flexible this year due to the coronavirus precautions. If you are absent, you will need to sign in to Google Classroom to see any announcements or assignments I have posted. Most of the work in my class will be submitted through Google Classroom, so hopefully we can avoid students falling behind if they have to be quarantined for multiple days.

Cell Phones

Cell phone use is NOT allowed in my class. If I see a cell phone or if one goes off, I will confiscate it and the student can pick it up at the end of the day. If the student refuses to give up their cell phone I will send them to the office.

I received a copy of Mr. Dewoody's syllabus and have read it. I understand that if I have any questions or concerns that I can contact Mr. Dewoody directly by phone or email.

(please detach and return this portion only)
