

Community Use of School Facilities

KG

It is the desire of the Board to make school facilities and equipment available to the community when to do so will not interfere with the educational program.

Arrangements for the use of facilities and equipment are to be made with the building principal.

Non-profit community organizations may use school facilities without charge. Community persons or organizations wishing to use school facilities for solely profit making ventures may petition the Board for permission. The Board will consider each request and make its decision based upon the merits of the request.

In general, the Board will discourage use of school facilities for private profit-making ventures. In the event that any non—school person or organization uses the facilities for an activity, and that activity incurs cost to the district, fees will be assessed based upon the cost to the district.

Student organizations may have free use of the facilities provided that the request is made through proper channels and that an adult staff member chaperon is clearly designated and in attendance when the facility is being used.
