

Rentals and Service Charges

DFD

It is the desire of the Board to make school facilities and equipment available to the community when to do so will not interfere with the educational program.

Arrangements for the use of facilities are to be made through the building principal's office at the discretion of the principal.

Non-profit community organizations, using the building for other than fund raising projects, may use the facilities free of charge.

Persons or organizations wishing to use school facilities for profit making ventures may petition the Board for permission to use school facilities. The Board will consider each request and make its decision based on the merits of the request. In general, the board will discourage use of school facilities for profit making ventures.

Student organizations may use school facilities if:

1. The request is made through proper channels.
2. An adult chaperon is clearly designated and is in attendance when the facility is being used.
