**Staff Attendance****GCBD-B**

The Board recognizes the importance of improved staff attendance on a regular basis. An effective educational system cannot be maintained and improved unless staff members come to work each and every day. The Board also believes that it is unrealistic to think that there will never be any absences among staff members. However, it is realistic to expect that all employees maintain a high level attendance record.

It shall be the responsibility of the Board and the superintendent to encourage regular and high level attendance on the job.

Adopted: May 14, 1992
