

Staff Health and Safety

GBE

New cafeteria staff involved in food preparation must have a negative TB test upon initiation of employment. The testing program will be provided by the district. Thereafter, employees will be required to have a yearly TB assessment within 30 days prior to the beginning of the school year.

All bus drivers will be required to have a physical examination certifying physical ability to perform their duties at the time of hiring. DOT physicals are required on a biannual basis, unless required more frequently by a physician. Physical examination costs for regular and substitute/activity drivers shall be paid by the district.

Whenever an employee's mental or physical health appears to be a hazard to others or to interfere with the discharge of an employee's responsibilities, the Board may require an examination. This examination will be at no cost to the employee, provided the services of a Board designated physician are used.
