RE: Citizens' Advisory Committee's Recommendation for Bond Plan

We are writing on behalf of the Brownfield ISD Citizens' Advisory Committee who has been actively involved in development of a facility master-plan for the District. Our committee was organized last December at your request and we developed a long-term plan for the district that we believe will serve our community for many years. We have examined the results of the facility assessment and visited with educators and the community. Throughout our in-depth meetings and investigations, we have collaborated on ways to strengthen our district and community as we grow together.

At our previous Citizens meeting, we gave the Brownfield ISD administration our preference on projects to approve as a master-plan and to pursue through a bond package. This package is a list of projects **WE Can Do** that provide great long-term value:

1. Improve Safety and Security throughout the district by creating Secure Entrances at all Academic Campuses.
2. Construct a New High School that will improve our high school students ability to be career ready as they graduate and enter the community and workforce. Also construct a new Competition Gym that will serve as a gathering place for the community and allow the district to host tournaments.
3. Install New Playgrounds at Elementary School Campuses.
4. Relocate Middle School students to the old High School to allow re-utilization and partial removal of the existing Middle School.
5. Alter portions of the old high school weight room for new Tennis Locker Rooms adjacent to the existing tennis courts.
6. Remove portions of the old middle school to reduce long term maintenance and operations of the facility. Re-utilize the Auditorium, Gyms and ancillary spaces for community spaces as well as district-wide training facilities.

Finally, we believe strongly that our community's investment is well-placed in these projects and we believe every student, teacher, and community member in BISD will benefit. We appreciate the opportunity to serve Brownfield ISD on this committee and we are excited for what we can create for the future of Brownfield!

Sincerely,

Brownfield ISD Citizen's Committee
