

## **Carbon County School District #2 Athletic Spectator Guidelines**

### **Encampment; HEM; Saratoga**

In cooperation with Carbon County Public Health, the Wyoming High School Activities Association, and others, Carbon County School District #2 has developed protocols for fan attendance at athletic and activity events this upcoming school year. These protocols are designed to best protect the health and safety of our community while simultaneously allowing fans to attend events and support our youth in their activities. We thank you in advance for your support in helping us protect the health and safety of our students, staff, fans, and communities as you support Encampment, HEM, and Saratoga athletics and activities.

### **Introduction**

Carbon County School District #2 (CCSD#2) and its member schools will work in a safe, responsible manner designed to maximize the health and safety of our fans and participants as we reintroduce athletics and activities. CCSD#2 Administration, Activity Coordinators, Coaches, and Board of Directors have worked to get CCSD#2 athletes and activity members back to their respective activities in accordance with WHSAA policies as well as local and state public health orders. The following protocols and procedures have been created in accordance with local and state public health orders and guidance from the WHSAA to allow fans and spectators to support our student athletes and activity members as they return to competition.

### **Wellness Screening**

Spectators are asked to screen themselves using the WHSAA provided Screening Tool before entry into any Carbon 2 home events – which will be available at entry tables to our home events. By entering our home event – you are attesting that you can answer “No” to all questions on the WHSSA Screening Tool.

### **Social Distancing**

Social Distancing of 6 feet should be adhered to whenever possible. Family groups will be permitted to be together. Non family groups will be encouraged to adhere to 6 feet social distancing standards when possible. When Social Distancing is not possible, face coverings will be required.

### **Face Coverings**

Bandanas, scarves, cloth and non-medical grade masks will be acceptable forms of face coverings at all activities and athletics. Face coverings will be required for entrance and exit of all activities and sporting events both indoor and outdoor. Face coverings will be required when social distancing is not possible or in places people congregate. Children under the age of three (3) will not be required to wear a face covering. If a spectator provides documentation **signed by a medical provider** of a

face covering exemption at the sign-in table, then that person(s) listed on the documentation will not be required to wear a face covering.

### **Concessions**

In accordance with the CDC and local and state health department guidelines, concessions at all competitive venues will be very limited. Bottled drinks and packaged foods will be available. Popcorn, nachos, hot dogs and all foods that are not prepackaged will not be available. In addition, no water fountains will be available for use at either outdoor or indoor venues.

### **Current Public Health Order on Gathering Size**

State Health has created gathering size health orders for both indoor and outdoor facilities. Currently, the Public Health order for gathering size are up to 250 patrons in each facility indoor and 1,000 for outdoor. However, CCSD#2 gyms - once marked off for 6ft of social distancing do not have a 250 person capacity. (Participants and game day personnel are not included in the patron totals.) CCSD#2 gyms stands will be marked off so the areas available for the 6-person family groups will be evident - with 6 ft between each family group. Spectators will not be required to wear face coverings if they remain seated and/or maintain 6 ft of social distancing. However, in common areas, spectators are asked to wear face coverings (i.e. trips to concessions, RRs, in commons areas) or to maintain 6 ft of social distancing.

\*\* As new health orders are released the limitations can be modified in accordance with local and state public health orders and guidance from WHSAA.

**Please see the complete CCSD#2 Activities Reopening Plan that has been reviewed and approved by Carbon County Public Health that contains more details and is available on CCSD#2 District website. ([www.crb2.org](http://www.crb2.org))**

### **Timeline Expectancy**

It should be noted that timelines and capacities can change. The capacity may vary depending on changing health circumstances and corresponding direction from CCSD#2, Carbon County Public Health, the State Health Office, and/or the Governor. Although starting fall sports on time is a great feat in itself, protecting the health and safety of our fans and athletes so we can finish our sports season is our ultimate goal. Please do your part in following all protocols to give our athletes and activity members the best possible opportunity to compete and perform this school year.

**\*\*\*This plan will be in place until new guidelines are issued\*\*\***
