Dear Seniors Class Members, Parents, & Guardians,

Senior Baby Pictures

During Graduation a senior slide show will be presented. Some of your senior pictures will be used, as described below, and we will also ask for your baby and youth pictures as well. This is where parents can show how their child has grown and aged, or show their child’s activities and interests from birth until graduation. These photos can be in any form and size. We will be happy to scan your photos and return them to you quickly and safely. Flash drives, disks, or printed pictures are all fine. You may send your photos with your child, deliver them to the school’s front office, or send them via email to rnewby@evantisd.org. Be sure to include return address information or other return instructions; otherwise we will return the photos to the appropriate student. These pictures should be brought to Mr. Newby before March 19th.

The senior slide show will be no longer than 20 minutes in length. Each senior will have a maximum of one minute in order to meet time constraints for the graduation ceremony. Please send your best and most meaningful photos and please understand if all of your photos are not used in the slide show. We will also include the baby pictures in the yearbook, on a separate page than the senior portraits. The deadline for baby and youth pictures is Friday March 19th. The slideshow will include one minute of school appropriate music as well. Songs may be reserved with Mr. Newby on a first come-first served basis. All senior slideshows must be completed and given to Mr. Newby by May 4th. Each senior will create their own slideshow or request a friend or classmate to help create it.

Senior Pictures

Each senior will need to have their picture taken in at least two different poses. Two different photos will appear in the school yearbook, along with each senior’s individual accomplishments. One of these two photos or a third photo will also be sent to the local newspapers in their special graduation editions. Each senior needs to have pictures taken individually or select photos from those taken by Hitt Photography for this purpose. The photos can be taken by an amateur or a professional photographer, but they must meet certain guidelines. If you do not submit other acceptable photos, then the school photos taken in the fall will be used.

1. Deadline: March 19th
2. They must be digital (on a disk, SD camera card, flash drive, emailed to Mr. Newby at rnewby@evantisd.org, shared via cloud storage etc.)
   - Pictures must be at least 300 dpi.
   - The easy way to do this is set your 10 to 14 megapixel camera to the largest picture size available in the camera’s menu and don’t use a camera-phone (No Selfies!)
