DISCOVER

- Summer school is designed to enrich student's learning with hands-on, project based curriculum that promotes interaction and helps build self-confidence.
- We are now also offering further enrichment in ELA for those reading students who need more enhanced instruction, as well as additional instruction in core curriculum areas.
- The summer program helps build communication and social skills and helps enhance leadership and encourage creativity. It is also extremely beneficial for our fall incoming kindergarteners to help relieve first day anxieties, increase their social behaviors and to familiarize them with their new surroundings before the first day of school.
- Summer school is free of charge and breakfast, lunch and transportation are all provided.

This form is also for incoming 2019-20 Kindergarten students.  
Return completed form by April 26th so we can staff accordingly.
