## **Rotary Healthy Smiles Program Benefits Students**

Through the Rotary Healthy Smiles Dental Program, eligible students in Lamar County are screened each fall to see if they qualify for sealants or a thin plastic coating applied to the grooves and chewing surfaces of their teeth to protect them from tooth decay. With the help of dental assistant Ashley Womack, Dr. Cliff Mackenzie examines Meonshala Kellum, a second grader at Justiss Elementary. Also assisting are Rotarians Matt Coyle, Mike Gallagher, Mahesh Agarwal, Joyce Schaffer, and Rodney Flippen.
