

Mrs. Mahon's Classroom News!

Classroom News for The Week of November 14th-18th

Math

This week we will continue dividing up to a 4 digit dividend by a 1-digit divisor using the Big 7 method as well as the box method and the area model.

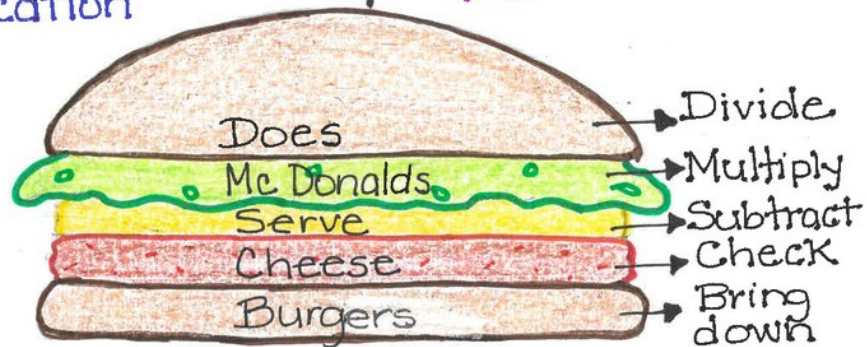

Division

$$\begin{array}{r} 892 \\ 8 \overline{) 7,136} \\ \underline{-6,400} \\ 736 \\ \underline{-720} \\ 16 \\ \underline{-16} \\ 0 \end{array}$$

$$\begin{array}{r} 8 \times 800 = 6,400 \quad 800 \\ 8 \times 90 = 720 \quad 90 \\ 8 \times 2 = 16 \quad + 2 \\ \hline 892 \end{array}$$

Must always check division with multiplication

$$\begin{array}{r} 892 \\ \times 8 \\ \hline 7,136 \end{array}$$

$$\begin{array}{r} 80 \text{ R}3 \\ 7 \overline{) 563} \\ \underline{-56} \\ 03 \\ \underline{-0} \\ \textcircled{3} \end{array}$$

Remainder has to be less than the divisor
