

Searching for Science Items

- There are two ways to search the item bank: (1) Create a Test, and (2) Search the Bank.
 - **Create a Test:** Click on the **Tests** icon. Click on the **Actions** menu to create a **New Test**.
 - **Search the Item Bank:** Click on the **Item Bank** icon. The **Test Items** page will display.

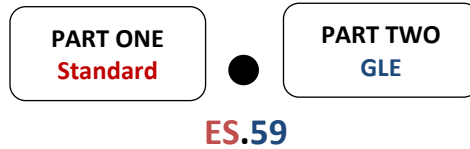

To search for items across a specific grade and subject area, select the **Grade** and **Subject**. Click **Search**.

To search for items aligned to a specific standard, select the **Show Advanced Filter** link and follow the steps below.

Elementary

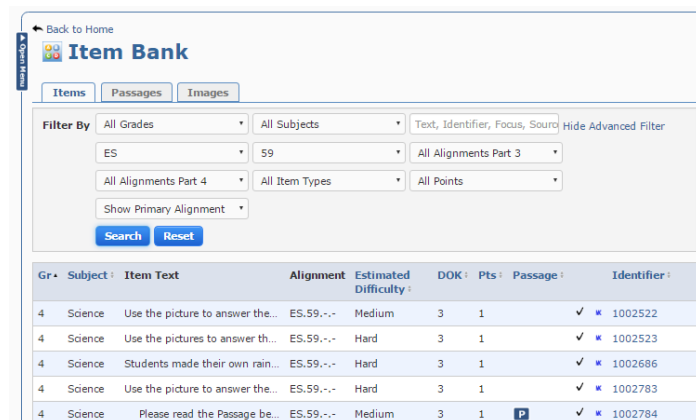

There are two parts to the code for science standards in Grades 3–8. Part One contains the standards which are listed as:

- SI: Science as Inquiry
- PS: Physical Science
- LS: Life Science
- ES: Earth and Space Science
- SE: Science and the Environment

To search for standards-based items in EAGLE, select **Show Advanced Filter**. Choose each part of the alignment code from the appropriate drop-down menus. Click **Search**.

	ES (Standard)	59 (GLE)	(N/A)	(N/A)
EAGLE Label	Alignment Part 1	Alignment Part 2	Alignment Part 3	Alignment Part 4

High School

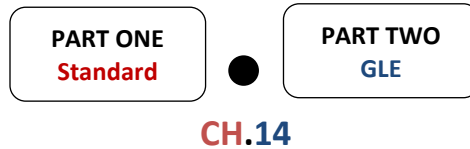

The codes for standards in high school science courses have two parts.

Part one lists the standards for high school as:

- SI: Science as Inquiry
- PS: Physical Science
- LS: Life Science
- ES: Earth and Space Science
- SE: Science and the Environment

Part one also includes the following courses:

- PH: Physics
- CH: Chemistry

To search for standards-based items in EAGLE, select **Show Advanced Filter**. Choose each part of the alignment code from the appropriate drop-down menus. Click **Search**.

	CH (Standard/Course)	14 (GLE)	(N/A)	(N/A)
EAGLE Label	Alignment Part 1	Alignment Part 2	Alignment Part 3	Alignment Part 4
