RE: RRMS Playground Project

Rene A. Rost Middle School was erected in 1940 as a high school. It is the oldest school building in Vermilion Parish. As it was not designed for a middle school, improvements are needed and we are asking the community for assistance. Currently, there is no playground equipment for our children to use during recess. Students go to the grass area after recess where there aren't even any trees. It is our dream to provide them a space to release energy and an opportunity to relax.

The Rene Rost Middle School faculty and staff would like to create a playground for our students. We envision a place where students can play basketball, football, throw frisbees, etc. as well as a place for them to socialize. It is our goal to secure balls, goals, a concrete slab, tables, benches and umbrellas. The total projects is estimated to cost approximately \$8,000.

We ask you to partner with us on this project. All donations are welcome and greatly appreciated. We will keep the community posted on the progress of the project via weekly call outs and Facebook posts.

Our faculty and staff thank you. Our students will be forever grateful.

Please contact me if you have any questions.

Yours in educating our children,

Sonya C. Louviere, Ed.D.
